Top, Nowo Zjazd street; bottom, old market place.

Cracow is the center of Polish culture, the shrine at which the Polish nationalist adores the vanished glories of his race, but Warsaw is the center of Polish life. Cracow dreams of splendor, hazy in the past. Warsaw is the third city of Czar Nicholas' dominions, the most important in every industrial and commercial sense.

Berlin, July 22.—(Via London)—The war office announced today that the Austro-German forces which are driving at Warsaw from the south had compelled the Russians to retreat into the fortress of Ivangorod about 56 miles southeast of the Polish capital. The fortress is now closely invested.

# DROVE CAR OVER BANK TO AVOID RUNNING INTO N. & W. FREIGHT TRAIN

It develops that Mrs. Albert J. Lillich, of No. 1022 Gay street, was the woman injured in the automobile accident near Chillicothe and Seventeenth streets Wednesday afternoon.

Mrs. Lillich had her hand sprained besides sustaining minor bruises. Others in the big touring car besides its owner, Ed Metzger, of Norwood, formerly of this city and wife, were his two children, Sarah and Blanche, Mrs. Lillich and two children, Dorothy and Albert and Mrs. Lillich's mother-in-law, Mrs. Margaret Lillich. All were more or less shaken up when Mr. Metzger sent his car over an embankment causing it to turn turtle, rather than to run down by an N. & W. freight train. The brake of his car had broken just as he was descending the Chillicothe street hill and he was unable to bring the car to a stop. "I believe that Mr. Metzger did the very best thing under the circumstances in sending us over that bank," said Mrs. Lillich in speaking of the accident, Thursday.

Mr. Metzger, who is a well known traveling cigar salesman, is stopping at the Washington hotel, with his family. They expect to return to Cincinnati, Friday.

## "The Seal Of God" Is Subject Tonight

"The Seal of God" will be the subject at the gospel tent tonight.

"Meditation and Prayer" was the subject discussed last night by Rev. J. F. Olmsted. Isaiah 40:31 was the text: "But they that wait upon the Lord shall renew their strength; they shall mount up with wing as eagles; they shall run, and not be weary; and they shall walk, and not faint."

"Paul's admonition to the Colossians was to 'continue in prayer,' and just before Christ was betrayed, he told his disciples to 'watch and pray that ye enter not into temptation.' Peter's reason for vigilance is, 'Be sober, be vigilant, because your adversary the devil, as a roaring lion, walketh about seeking whom he may devour.'"

"Secret prayer is suggested by the Saviour, and he often prayed whole nights in the mountain alone that he might receive strength for the duties of another day. While we, in this generation, find ourselves engrossed with the cares of life until many times we forget to pray, and try to move the world with physical force instead of appealing to heaven to help a righteous cause."

"We are told to love our enemies, and to do good to them that hate us, and pray for them that despitefully use us, and persecute us. Christ did it; Stephen did it, and yet today some who stand as shepherds rattle with hatred and enmity every opportunity to engage in personalities and thrust others who long for the kingdom. When we love our enemies we are not far from the kingdom, but as

## CARL SPRECKER WILL MOVE TO CLEVELAND

Carl A. Sprecker, one of Portsmouth's most deserving and promising young citizens, will leave about August 1 for Cleveland, where he has accepted a lucrative position with Ernst & Ernst, public accountants, and a strongly entrenched firm.

Mr. Sprecker, up until a short time ago, was with the Portsmouth Paving Brick company, a concern he served faithfully and well for fifteen months. Previous to that he was with the First National bank, where he held one of the most important clerical positions.

In confirming the report that he had accepted the Cleveland position Mr. Sprecker stated he expected to move his family to the Forest City some time soon. He stated that he had decided to permanently locate in Cleveland and that his residence property on Fifth street was for sale.

While the many friends of Mr. Sprecker and family will be sorry to see them leave Portsmouth, nevertheless they are assured of the fact that best wishes will follow them to their new home.

Ruth, young daughter of Mr. and Mrs. C. A. Garrett, of Kendall avenue, underwent a very delicate operation several days ago. The tot, who is only a little over two years old, is getting along nicely.

## DRIVER, HORSE AND WAGON GO OVER KENTUCKY BANK

Hurled from his wagon when it plunged down an embankment leading to the C. & O. ferry in South Portsmouth Thursday morning, Jay Poe, a gardener of St. Paul, Ky., was bruised about the arms, head and shoulders but no bones were broken.

As he neared the edge of the bank on his way to Portsmouth his horse gave a sudden lunge and before Poe could prevent the accident the horse and wagon with all its produce plunged down the embankment. Poe was picked up and taken to the Wingo restaurant near the South Portsmouth depot, where his injuries were dressed by Dr. A. J. Bryson, who was summoned from Fullerton. The horse was not injured and very little damage resulted to the wagon and harness.

## CHOIR PAYS A LAST TRIBUTE TO MRS. CLAY B. NEWMAN

The late Mrs. Clay B. Newman, who was for thirty-four years the organist of All Saints' church, and previous to that organist at Christ church in this city and at the college from which she graduated more than half a century ago, was also for many years the leader of All Saints' choir, thereby combining two most arduous tasks. To her, however, they were always a labor of love.

Her work brought her into close personal relationship with many men and women, who, coming under her influence and training first as children, remained under her care throughout their youth and young girlhood, and in many cases continued to take their part in the services of the sanctuary, until long after they were married, and had children of their own.

It was, therefore, to be expected that when she was taken for the last time into the dear old church which she had served so long, so faithfully, and so well, that those who had been associated

with her in rendering the music of the services would come in large numbers to pay their last tribute of affection and regard to one with whom they had labored for so many years.

And that was why the vested choir which sang so beautifully at the funeral services last Monday morning was larger than it has been all summer. That was why those who have been compelled, through various good and sufficient reasons, to relinquish their connection with the choir, once more clothed themselves with the cassock and cotta they had worn for so many faithful years, and preceded by the cross behind which they had marched in procession, so many, many times, marched once more to the doors of the church, that they might with fitting reverence conduct the casket containing all that was mortal of her who had mothered them all, to its brief resting place at the entrance to the chancel. And then, when the priest had discharged the first part of

his sad duty, and the funeral psalm, the beautiful "Domine, refugium" had been chanted to its plaintive setting; when the wonderfully comforting and inspiring lesson from the first Epistle of the great apostle to the Corinthians had been read, and the beautiful prayer of commendation and absolution had been said; the organ burst forth into the triumphant strains of Clay B. Newman's favorite hymn, a hymn written by William Walsham How, Bishop of Wakefield, England, in whose diocese the father of the present rector of All Saints' labored for nearly forty years as a priest, and at whose hands the rector received the sacramental grace of Holy Confirmation when he was a boy.

"For all the Saints, who from their labors rest." And so Clay Newman's earthly connection with the church of her faithful labors and unselfish love was fittingly closed. Once more the cross gleamed brightly at the head of the procession of white robed

choristers as they escorted the flower crowned casket to the doors of the church. "For All the Saints." Their voices showed how joy and sorrow battled for the mastery in their throats. Alleluia! Alleluia! they sang, and joy triumphed. Joy, because she whom they loved had entered into the joy of her Lord. And because they knew this they sang "Thy name, O Jesus, be for ever blessed, Alleluia!"

And as the casket was borne into the bright sunshine of the morning, they formed a guard of honor through which it passed, singing the words for the truth of which the brightness of the morning seemed to vouch and in which they affirmed their belief in the glorious doctrine of the resurrection of the dead.

But lo! there breaks a yet more glorious day: The saints triumphant rise in bright array: The King of Glory passes on His way. Alleluia!

## IN MEMORIAM--CLAY B. NEWMAN-- 1844-1915

Whereas God in His infinite mercy has been pleased to call to her reward Clay B. Newman, who was for thirty-four years the capable and efficient organist of this church, and during all this time a regular and devout communicant, zealous in all good works, not only in such as pertained to the purely local activities of this parish, but also in those wider endeavors which support and make possible the missionary work of the church in this and other dioceses at home and abroad.

Therefore, Be it resolved: That we the rector, wardens and vestry

of the parish of All Saints' Portsmouth, acting in our corporate capacity as the representatives of all our people, do hereby place on permanent record our heartfelt gratitude to Almighty God for the example of steadfast persistence in well-doing which she set. And we will ever pray, that both to ourselves and to all others her example may serve as a challenge and an inspiration to the faithful performance of our duty.

And to those who were and are bound to her by the closer ties of relationship, her husband, her children, her grandchildren, her

sister and others, we offer the assurance of our most sincere sympathy in this their hour of trial, asking them to believe that in no small measure their grief is shared by us and by all our people who for so many years have been privileged to "take sweet counsel together" with her and to "walk in the house of God" with her "as friends."

And secure in the knowledge that our Father "doeth all things well" and sorrowing yet as men without hope for her who sleeps in Him, we bow in humble resignation to His will.

And we will ever pray that in His infinite mercy God will grant unto our dear departed sister the rest eternal which remaineth for all His children and the light perpetual which shineth from His throne.

And be it further resolved: That a copy of this minute be engrossed upon the records of the parish and given to the editors of the local newspapers and to the editor of the Messenger, the official organ of the Diocese, with a request for its publication.

## SAGE TEA BEST WAY TO TURN GRAY HAIR DARK

Combined With Sulphur Makes Good Old-Fashioned Treatment.

A good old-fashioned remedy for darkening gray hair is a compound of Sage Tea and Sulphur. Avoid the trouble of making it yourself by getting a bottle of Sulphur-Sage. This is a daily toilet preparation based on the old-fashioned formula with other helpful ingredients added. It is in no sense a dye, but merely causes nature to bring back to each gray hair the original rich, dark shade. This is done so evenly that no one knows you are using anything. New gray hairs are kept from showing. Sulphur-Sage removes dandruff, gives your hair a glossy lustre and beauty that will make you look ten years younger. Get this fine old-fashioned Sulphur-Sage today from Fisher & Sichel. They recommend it to Portsmouth ladies; will refund price if it fails. (Cutting Chemical Co. New York, N. Y. ## RUBBING IT IN.

Former Congressman Bannon was rather rubbing it in on the valiant warriors of the old gang when he dubbed them a bunch of kickers and declared that they were seeking to destroy the real organization of the party locally and also to discredit and humiliate the administration of Governor Willis. More than this, Mr. Bannon went after some of the chief personages of the alleged kickers and drove the McCormick followers into ribald and jeering laughter as he painted their anger and dismay when they were shut off from the political feed trough. All of this was most unkind in Mr. Bannon as was also his action in recalling the frost that was prepared by the same old gang for one, Frank B. Willis, when he came here chasing the nomination. The inner story of the suppression of a call for a meeting to arrange to meet Willis is something new, but if true, it shows to what lengths the Republican factions will go to carry out their purposes.

Bannon and his protegee, McCormick, seem to have their enemies on the run. At any rate they are out-talking them, in which fact they somewhat resemble the two colonels—Bryan and Roosevelt.

## AN EXPLANATION NEEDED.

The resident construction engineer is quoted as giving it out that the water works complete would cost the city \$450,000. Now that suggests several things. In the first instance that the engineering force should hold a convention and organize to a common opinion. For according to the construction engineer the plant is not now complete, but the operating engineer says it is in successful operation, and has been for six months, which implies completion. Already bonds to the extent of \$550,000 have been issued to cover the cost and that sum is no more than sufficient to meet the liabilities already incurred. It becomes important, in one view to know what has become of the surplus \$100,000, and in the other just what does the construction engineer mean in saying the plant would cost the city \$450,000 when completed. Is that to be the cost from start to finish, or does it mean that when the specifications are changed, as the engineers and contractors are now talking about, and new machinery and new processes put in, it will cost \$450,000? It is really important that the public know just what it is up against as a tax paying and costing proposition, in this plant.

## THERE'S A REASON.

The Sandusky Register, Republican, avows the press of the country with singular unanimity and regardless of politics is sincere in supporting President Wilson's foreign policy in reference to the European war. Another fact is evident, and that is all newspapers, also regardless of politics, are opposed to President Wilson's foreign policy in relation to Mexico.

Which, the same, sounds real elegant, there being only one thing about it to be deplored, it is not true by just one-half. To a man the Democratic press is standing steadfast with Wilson, in both the European and Mexican situations. A large number of Republican papers profess to support him in his European policy, but it is few indeed, that show genuine sincerity. Practically all the G. O. P. organs revile his course with Mexico and for that is there reason. Mexico is so puny that we, with one arm tied behind and blindfolded, could cuff her about without the slightest danger of getting any more than a scratch, and then there are no worth while Mexican votes in this country. With Germany the case is different, so much different. The Germany vote numbers up in the millions; it is consequential, and in the work of making hostile to Wilson by patting him on the back, why that's good business.

Our good young Governor is real peeved at Auditor Donahy's official statement that he has run up the state expenses four million dollars for the first year and is going to do some figuring for himself. If he is as careless with the figures as he was with facts when running for governor, we bet he'll make those figures prove Donahy is a liar, to his own entire satisfaction.

Here's an item from the Delaware Journal-Herald we read with delight: The small building at the Blue Light quarry was set afire by a cross current of electric wires, during the heavy storm of Thursday and completely destroyed. No mysterious or unknown origin about that, not so much as a supposition, just the plain, positive statement of a cause that can not at least be disproven.

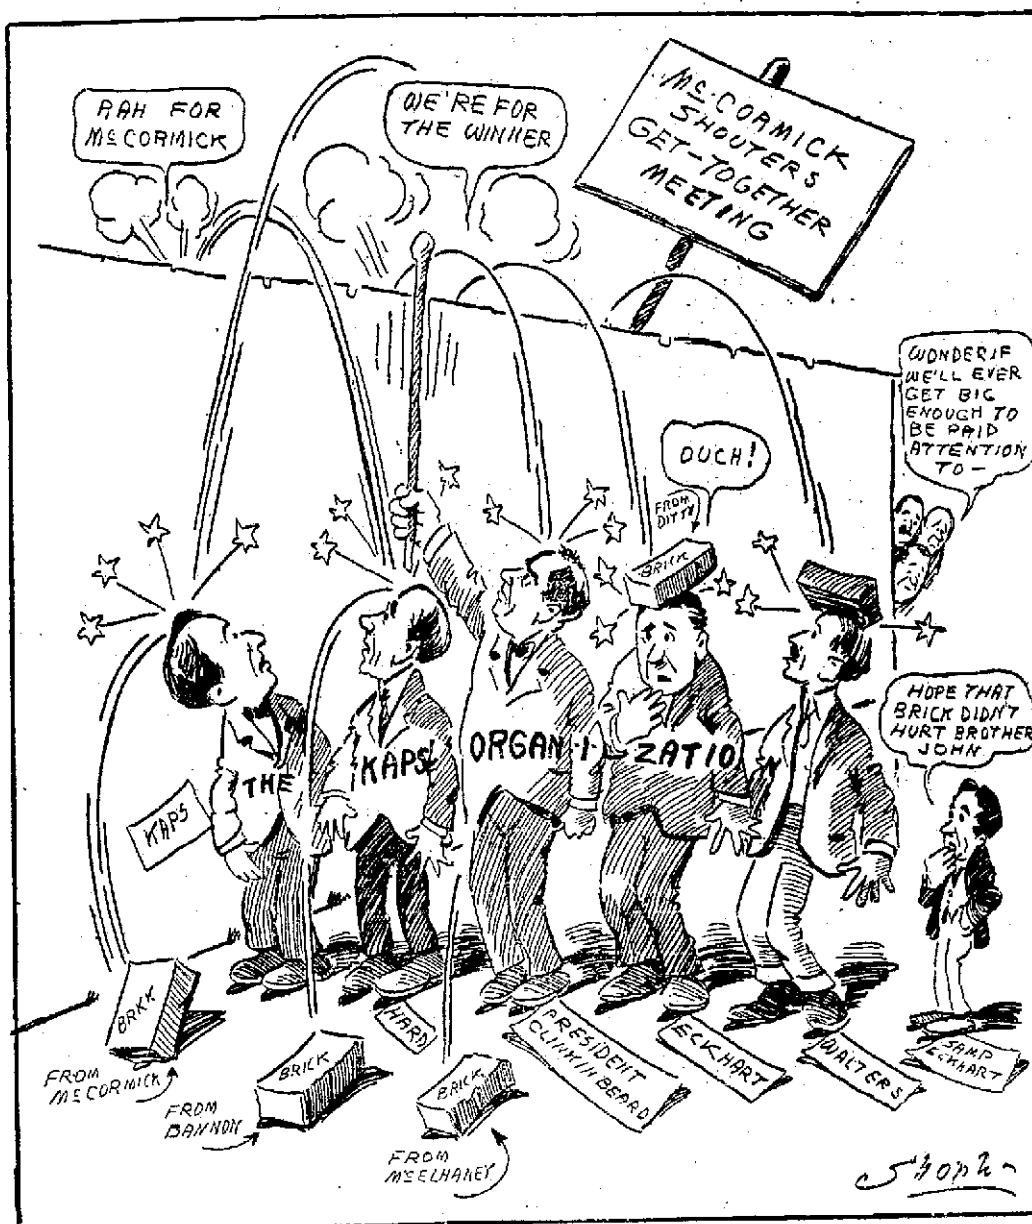

The unkindest cut of all is handed out by his once staunch supporter, the Jacksonville Times-Union, which observes: Some papers are still worrying over why Bryan resigned when there ought to be nothing but rejoicing.

The Cincinnati Reds are coming home this week. They will find among other sad things, that the berth in the Ohio league is now closed to them.

Carranza and Zapata are playing a regular after you my dear Alphonse act over Mexico City.

The Russians seem to like being licked better than any other party to the fracas.

## THE MCCORMICK CLUB HAS A "HARMONY" MEETING

## LOOSE AT WRONG END.

One of the reasons of general and colossal ineffectiveness in banding public finances is the money can be so instantly spent for hostless purpose and it is so long and hard in the getting, when it is wanted for absolute and immediate needs.

There is Franklin county as a dark and distressful illustration. Franklin, in proportion to her size like every other county in the state has each term of her board of commissioners spent and frittered away millions of dollars to no appreciable result. In a niggardly and half hearted way she has built levees along the Scioto and Olentangy to protect from overflow. The great waters of 1913 showed how inadequate these were. As they subsided there was brave talk about flood defenses, but as the vividness of the last flood faded away so did the work and the net result was practically no improvement made. With the waters of 1915 swirling by, of course, the levees and dikes are going to now be thrown up high and strong—sometime. Not right now because there isn't any money available for the present, but the defense board has been organized, secretary and treasury elected, with due provision for the payment of salaries, but actual work will have to wait upon the collection of taxes.

Yes, that's quite like we do it in Scioto county. We levied a special \$100,000 annually for permanent roads and the first year most of the \$100,000 was dubbed and pattered away in dumping mud and muck and throwing innumerable thank-you mums across them until they look like a section of trenches or ramparts in northern France and now with the rains coming down and washing gullies and holes in the highway there isn't money even for dirt dumping, unless the people vote another special \$100,000. And then there's those two-paths—but let them go without another word.

A Democratic contemporary sees John J. Whiteacre manifesting signs of penitence for the sinful and shameful under part he played in the organization last campaign of the True Blue Democracy, as the factions Jim Faulkner calls 'em. It sees something that ain't. That red headed reprobate of a Whiteacre wouldn't recognize penitence so much as a palpable substance if the two met as the sole wayfarers on Canton's biggest thoroughfare at noon today.

The sedate Columbus Dispatch says Harry Thaw could bestow a great blessing by disappearing from the public ken. That isn't just exactly fair to Harry. Newspapers could just as readily bestow a boon on the public by dropping him as a news factor.

We observe the chief operating engineer at the water works is quoted as saying they have been in successful operation since November 4th. Why then all this fuss about reservoirs that wouldn't reservoir, pumps that wouldn't pump and machinery that wouldn't machine, to say nothing of water that wouldn't water at divers and sundry times? It isn't fair to contractors to ask them to make more of their work than a success, so pay them their money and quit annoying the public with unnecessary wranglings, if the chief engineer states the case correctly.

A Chicago policeman has quit the squad to become president of a bank. That proves he is most unusually thrifty for a cop, but in what way is not suggested explicitly.

The Russians want a billion rubles for running expenses. Sounds like a big sum, but guess it isn't much considering the running the Russians are doing these days.

Across the pond, glancing at the situation from this distance, it appears about as Napoleon said: In war God is on the side that has the most cannon. That is no, either as irrelevant as it may sound, as it means that those who make the best preparation to achieve victory and thus show most desert.

Nothing is so bad as it might be. The latest insurgence of the Scioto carried out the temporary bridge, just to keep in practice, but it did little damage to the corn fields.

If Frank improves for another three days like these gone before, it will be safe guess that his thrilling throat cut was nothing more than a scratch made during the paroxysms of a nightmare.

OLD NEW YORK  
by J. M. McIntyre

New York, July 22.—Mr. Fred erick Welsh, of London, England, and not infrequently the squaring ring, tendered a delightful dinner to a number of his friends at Coney Island one night last week. The occasion was the first anniversary of Welsh's ability to toss more padded fists in the direction of William Ritchie than Ritchie could toss in his general direction.

The table was decorated with padded mitts, ropes and resined boards. Not a few of the guests too, wore appropriate decorations, consisting of cauliflower ears, twisted benks and cleverly placed bits of court plaster.

Welsh in his speech announced that he was returning to England shortly to rest and incidentally to see for the first time the young son who was recently born. One of the features of the dinner was the extraordinary care the waiters took not to spill any hot soup or hot coffee on the guests.

Mice and monkeys, buttons and braids, checks and clocks, roses and tassels—they are wearing them all this summer as adornment to the summer girl's feet. This is the age of a pretty foot. You cannot fail to see it. Skirts refuse to hide it; stockings scream aloud for attention.

Some disguise themselves in the guise of shoes; others imitate a cutaway coat. Still others, conspicuous as a barber's pole, cannot fail to advertise the Tribby they clothe. A dancing monkey or a timid white mouse, glimpsed vanishing beneath a skirt hem, first startle the passerby, then focus his attention on the ankle whereon they disport themselves. The boys who hang around the wind-swept corners such as the Flat Iron Building and Times Square find much to amuse them these days.

Karl Kitchen was on an elevator in the Equitable building the other day when a lady got on and a young man promptly took off his hat, then he lighted his cigarette.

Latest song hit on Broadway: "We'll Build a Little Home in the U. S. A."

## The Markets

### NEW YORK STOCKS

New York, July 22.—Further gains of one to three points were made by war stocks at the resumption of trading today, the strongest features being General Electric, New York Air Brake, Crucible Steel and Bethlehem Steel. Westinghouse, yesterday's most noteworthy feature, opened with a sale of 3,500 at 109 1/2, a maximum decline of 1/2 soon making full recovery. General Electric assumed increased prominence later, extending its gain to over six points. Railway issues were again backwards, notably Canadian Pacific and the Harriman subs. Steel also reflected moderate pressure.

Greater irregularity was manifested later, numerous railroad issues falling under yesterday's final figures. Canadian Pacific was notably weak, declining 3 points to 139, the lowest quotation since 1904. War specialties lost some of their activity but made up fully three-quarters of the first hour's business. Baldwin Locomotive at 75 1/2 and Bethlehem Steel preferred at 124 1/2 sold at record prices and United States Steel came within the smallest margin of its best quotation for the year. Shares of the express companies rose 2 to 6 points on the rate increases granted by the commerce commission. Bonds were steady.

Further heaviness in the railroads marked the later dealings. The closing was irregular.

War stocks again furnished the impetus to today's market, with continued reaction in railway issues, Canadian Pacific selling at a low record.

**CHICAGO GRAIN AND PROVISIONS**  
Chicago, July 22.—Opinions that Europe would require larger imports than was expected had a bullish effect on the wheat market here today. Advances from England, France and Italy all reported an unpromising harvest outlook. However, highly favorable conditions for the development of the domestic spring crop and for the harvesting and moving the winter crop acted at first as a weight on prices. The opening, which varied from the same as last night to 3/4 down, was followed by a little further decline and then a material advance all around.

Good shipping demand from the East tended to harden the corn market.

Beside country offerings were quiet. After opening a shade off to 3/4 higher the market scored a moderate upturn. Oats relatively easy. There was some pressure felt from hedging.

Declining prices for hogs weakened provisions. About the only support was from shorts.

The market afterward underwent a bearish reaction due largely to increased offerings at Omaha and to some disappointment regarding the extent of sales for Europe. The close was unsettled, 1/2 off to 1/4 up compared with last night.

Cool weather helped to sustain the advance in prices. The close was strong, 1/4 to 1 1/2 above last night.

# JACKSON-PORTSMOUTH ROAD BID RECEIVED

Columbus, July 22.—Bids on \$1,250,000 worth of new roads in Ohio were received today by Highway Commissioner Cowen. The jobs were located in 37 counties and consisted of 44 different pieces of work.

Among the improvements were the following:  
Allen county, Lima-Spencer road, Amanda and Spencer townships, macadam, 3 miles, estimated cost of construction \$35,000.

Ashtabula county, Hampden-Amsder road, Cherry Valley and Amsder townships, brick, 2.8 miles, estimated cost \$37,000.

Montgomery county, Cincinnati-Dayton road, Van Buren township, brick, 2.4 miles, estimated cost \$71,000.

Scioto county, Jackson-Portsmouth road, Clay township, brick, 2.5 miles, estimated cost \$44,000.

Stark county, Canton-Staubsville road, Osunburg township, brick, 2.5 miles, estimated cost \$58,000.

Washington county, Zanesville-Dresden road, Falls township, brick, 1.1 miles, estimated cost of repairing \$15,000.

At least 80 per cent of those ordered to raise buildings or make improvements, during a recent visit of inspectors to this city, have complied with the orders, according to T. R. Bell, assistant state fire marshal, who is in the city checking up. He expects to complete his work here next week.

"About 350 orders were issued as a result of the last inspection," said Mr. Bell. "and I am much gratified at the way citizens of Portsmouth are obeying. More than 80 per cent have complied with the orders, so far as I have checked up."

Mr. Bell said the law would be enforced in the case of those who do not voluntarily comply.

## A COMEDY

## NAME COMMITTEES FOR THE BIG BOOSTER DAY

At a meeting of the general committee appointed to arrange for the sale of tickets for "Loyalty Day" on Thursday, July 29, at Millbrook park, held at the office of W. A. Inman, Wednesday night, several subsidiary committees were named, who will have certain districts as their territory for the disposition of tickets. The meeting at Mr. Inman's office was one big round of enthusiasm, and it would seem that the various committees would experience but little difficulty in the sale of the 100 loyalty tickets.

However, there is considerable more work to do before the tickets are offered for sale, and a meeting of the original committee, composed of those named at last night's meeting, is called for Friday night at 7:30 o'clock. This important meeting will be held at the Times office and it is also imperative that every member be present. At this meeting the tickets will be distributed to the various committees, and it is planned to begin the sale at once. Nothing would please the committee any more than to have quite a large number of other fans to volunteer their services. Work will be found for all, and it is work that will be needed to make Loyalty Day one huge success. Any fan or fanette will be welcome to attend Friday night's meeting at the Times office.

At the meeting last night the following committees were named: Court House—Judge Beatty, T. C. Patterson, Roy McEllanay and candidates.

City Offices—George Gableman, Fred Baesman, W. A. Inman.

Grocers—Alva Chabot, Frank Watkins.

Retail Merchants (Central)—Dick Richards, Arthur Bode, Albert Marting.

East End Merchants and Mill Top—John Kyle, L. P. Lennon, John Flood.

Banks and Building & Loans—Fred Tynes, Frank Kehoe, Ford Haldeman.

Manufacturers—John E. Williams, Wells Hutchins, Wade Kennedy.

Lawyers—Charles Scudder, Sam Johnson, Arnold Schapiro.

Druggists—George Freund.

East End; Dan, Thomas, James Hagar, George Wurster.

Wholesale Merchants—Alan Jordan, Harry Johnson, John Bauer.

Doctors and Dentists—Conrad Roth, Mark Crawford, Dr. Young, chairman.

Board of Trade—Alan Jordan, Maurice Coe, Ford Haldeman.

Saloons—M. H. "Buddy" Molster, Paul Esselborn, Albert Maier.

Traveling Men—Rob Gilbert, Walter Bitner.

New Boston—Capt. Davis, Tom York.

Ladies' Committee—Miss Jean Bertram.

## WAGON DRIVEN OVER BOY AND DRIVER IS ARRESTED

George Pismis, of the Polar Ice Cream company, John and Eleventh streets, city, was arrested by Officer Tom Albrecht for driving a wagon over a boy, Sunday evening, on a warrant charging him with running over John Boyles, two-year-old son of Dan Boyles, foreigner of East Stanton avenue. The little tot was on the ground in the alley near "Peddler Joe's" store when the ice cream man in his wagon came along. According to Mrs. Stevens who witnessed the accident, the ice cream man could

have easily seen the child, but he did not try to avoid running over him. The child's left hand and left foot were run over and slightly mangled. According to Mrs. Stevens Pismis never stopped, but whipped up his horse. Mary Way, foreigner, ran to the injured child's mother, who came out and picked up her baby.

The father on learning of the affair ran after the ice cream man and caught him after a chase of several squares. He later went to Mayor Davis and swore out a warrant for the arrest of Pismis, who after being brought to the village was released on a \$25 bond. Trial Thursday evening, 7:30 o'clock.

## WOMAN IS BURNED

Mrs. Warren Davies of Fourteenth street was painfully burned about the arms and hands Thursday morning the result of a gasoline explosion. When she applied a match to one of the burners of a gasoline stove a sheet of flame partially enveloped her. The trouble resulted from a leaky burner it is thought.

## DRINKS "SLIPPED UP" ON HIM

Bomben Jones was the name given by a Virginia negro, who was found helplessly drunk at Eleventh and Gay streets. He said he had taken a few drinks and "they slipped up" on him. He was fined \$5 and ordered put to work on the streets.

Moral—Vote Ohio Dry, Nov. 2.

## Followed Kitten And Tot Got Lost

Devotion to a little gray kitten, which she followed when it started away from her home caused Florence, two-year old daughter of Court Bailiff and Mrs. Wiley Kates of Fifth street, to be lost for over an hour Thursday morning.

Threading her way along Chillicothe street for block after block the golden haired tot was not found until she reached Eleventh and Gay streets, seven blocks from the Kates home. A woman of that neighborhood found the child and when she took her to the

home of Mrs. Oscar Rogers she at once recognized the child and quickly notified Mr. Kates, who was summoned from the court house to take part in a search that had been started for the recovery of the child. The searches were led by Officer Roy Moore and the child after being found was soon returned to the arms of its mother.

TYPHOID UNDER CONTROL  
Washington, July 22.—The American view consul at Belgrade reported today that the typhoid epidemic in Serbia and Montenegro was under control.

## METHODIST LEADERS HOLD CONFERENCE IN THE CITY

District superintendents of the Ohio Methodist Conference gathered in Portsmouth Thursday to tentatively outline the plans for the annual M. E. Conference, which will be held in the Wesley Chapel M. E. of Columbus from September 8 to 13. Those present were Revs. L. L. Magee of the Portsmouth district, J. C. Jackson of the Chillicothe district, J. C. Arbuckle of the Zanesville district, T. W. Locke of the Lancaster district and F. M. Evans of the Marietta district.

"The meeting was called to learn how many ministers had dropped out of the active ranks and to look after the preliminary arrangements of the conference," said Rev. J. C. Jackson, formerly pastor of Bigelow church of this city today. "At these meetings it is also learned how many appointments will have to be made and how many deaths have occurred during the past year," Dr. Jackson continued.

The next meeting will be at Lancaster, August 5.

It was stated there were 180 active appointments in the Ohio conference; about 300 if the supernumeraries were counted. The Lancaster meeting will be presided over by Bishop William F. Anderson, who will also preside over the Ohio M. E. conference.

Following today's meeting Revs. J. C. Jackson, L. L. Magee, J. C. Arbuckle, T. W. Locke, A. M. Courtney and F. M. Evans, district superintendents and the Revs. J. E. Dibert, George W. Grimes and A. R. Connell of the city had dinner together at the Washington hotel, where the meeting was held.

Free street car rides to Idlewild, Saturday afternoon and Sunday. Cut out and save page nine of the Portsmouth Times Friday night, showing plat and prices of lots in Idlewild addition.

## Prosper At Dayton

J. E. Bowser, a former Portsmouth street car motorman, who with a friend, Otto Baumheckel, have been here since Monday visiting, expect to return to Dayton, O., in the former's touring car Friday. Mr. Bowser left Portsmouth nine years ago and for the past seven years has been conducting a grocery and restaurant directly opposite the National Military Home, doing a splendid business. He expects soon to erect his own building. Mr. Baumheckel is engaged in the meat business in the Gem City.

## ARE YOU A GOSSIP?

(Continued From Page 1.)

reached a verdict, files back and presents same to the clerk, who is instructed by his honor to read it. Its contents are:

"We the jury find that the defendant, while said defendant might have had some cause for talk, was not certain enough in the statements said defendant is accused of uttering and spreading, and it is our universal verdict that said defendant is guilty of gossip."

"Defendant, stand up before the court," the judge orders. "You have heard the verdict of a jury of your peers. Have you anything to say why the judgment of this court shall not be passed upon you?"

"Please, your honor, I was quite sure of what I was saying. The circumstances were so that I could not help but believe what I saw," says the defendant.

"Don't you know that the time is passed when a person can be convicted on circumstantial evidence," the judge asks. "The sentence of this court is that you shall, beginning tomorrow, sit in the most public place of the city for one week, from the hours of seven in the morning until nine at night, where the entire populace may view you."

"Next case."

## WARSAW'S FALL NEAR

(Continued From Page One)

and Windau, in flames, sent up a glow visible many miles away. The British public is following with keen anxiety the campaign in the east, hoping that Grand Duke Nicholas may stem the Austrian-German tide or at least retard its advance and continue in further retreat the cohesion he has been able to maintain thus far.

Eliminating the stroke against Riga, the operations in Poland occupy a front of roughly 300 miles, divisible into three principal areas: the first along the Narva, north and west of Warsaw; the second, the center on the Vistula between Warsaw and Lvangorod; the third in the vicinity of Lublin where the Austrians and Germans are fighting for the railways. The situation as the British press sees it is crucial and the papers generally remind Russia, as she checked the Germans at the gates of Warsaw last fall, and drove them back when within eleven miles of Lublin, so she should now hold them. Coincident with dispatches from Russian saying the spirit of the army is unbroken and the belief in ultimate victory is strong, comes the report that the feeling is growing that Russia is doing more than her share in the war, bearing at present almost the entire burden. These complaints, according to

Two men were killed and three wounded by the Tidewater guards before the attack was quelled. A heavy rainstorm which came up at the time helped to drive the rioters under cover.

Sheriff Kinkaid who had previously addressed a large crowd of strikers in the streets, warning them to keep the peace, rushed to the scene of the new attack and ordered the rioters to desist and withdraw. He was greeted with howls of derision and the attack continued.

A street rumor was current after the early morning fighting that two of the guards in the Standard Oil plant had been wounded by pistol shots and some color was lent to the report when an ambulance from the Bayonne hospital drove up and entered the works. It here no injured men, however when it left the plant and the surgeon in charge said he had been unable to find any

special correspondents, are not confined to the rank and file. Russian newspapers contrast the colossal battle in which their nation is engaged with comparative inaction along the western front.

## TWO KILLED, SIX HURT

(Continued From Page One)

the defiance of the strikers of Sheriff Eugene Kinkaid who has labored patiently with the men to keep order and to bring an end to the strike. He rushed up to the rioters when the melee was at its height and commanded the men to desist. He was greeted with jeers and left the scene. Later it was announced he had asked for troops and companies from Newark and Redbank were expected soon to be on the way as all preparations had been made for such a call. Sheriff Kinkaid's call was made direct to the governor by telephone and later he dispatched a written order. In a statement regarding his call for troops, Sheriff Kinkaid said:

"I telephoned to the governor that it was necessary to call out the militia. The men are not amenable to reason. They don't seem able to distinguish between my men and the men paid as guards. The situation is beyond my control and I have asked the governor to send men at once."

Of the wounded in today's fighting, John Surgen, said to be a former Austrian soldier, who led the fighting in the first attack, which was made early today on the Standard Oil plant, is probably mortally wounded. He was shot through the abdomen.

Until the men got out of hand today, Sheriff Kinkaid had every hope that he would bring about a settlement of the differences of the Standard Oil strikers, who went out late last week and Monday, following a demand for a 15 per cent increase in wages.

The Tidewater plant was shut down because of the disorder. The sheriff, with a committee had consulted with Standard Oil officials and expected to have another conference with them late today. He also telephoned to Washington for conciliators and two were on their way to Bayonne when the disorder was resumed and the sheriff defied.

Scores of strikers and others gathered at the works of the Standard Oil Company this morning. Inside the yards a fire broke out at a watchman's house but it was quickly extinguished. The strikers say that the trouble started when Tony Bednank was shot while walking near the company's works. The crowd, led by John Surgen, charged up the bank to attack the company's guards who were stationed behind the oil tanks. Surgen fell at the first fire and rolled down the bank.

The crowd pressed on and in the next exchange of shots Steve Fvohla, a 16 year old boy, was wounded. Then the crowd fell back and withdrew from the neighborhood.

Shortly before noon after several hours of comparative peace a crowd of 500 assembled near the works of the Tidewater Oil Company and began an attack on the guards there. Sticks and revolvers were used and the guards replied with Winchesters. During the fighting fire broke out in one corner of the barrel yard where staves and other lumber is stored.

Two men were killed and three wounded by the Tidewater guards before the attack was quelled. A heavy rainstorm which came up at the time helped to drive the rioters under cover.

Sheriff Kinkaid who had previously addressed a large crowd of strikers in the streets, warning them to keep the peace, rushed to the scene of the new attack and ordered the rioters to desist and withdraw. He was greeted with howls of derision and the attack continued.

injured inside needing attention. After the attack the strikers and their sympathizers gathered in groups all along the streets leading to the Standard Oil works. They discussed conditions in an excited manner but made threatening move toward the plant. Among several orators was Frank Tannenbaum, an industrial worker of the world leader.

The plant of the Tidewater Oil Company, within half a mile of the Standard Oil works, remained closed today. Its officials issued another statement, reiterating that there was no strike at the works; that the men are loyal and left only when they were driven out by a mob and that the plant was now shut down because the management "did not deem it safe for the men to come through the mob which is in control of the Constable Hook section of Bayonne. It also refused to employ strike breakers but would start its plant with its own men when given protection.

## REMINGTON STRIKE IS NEAR END

trade unions who met at Washington yesterday to consider the Remington strike, will come to Bridgeport tonight for a conference tomorrow, despite the developments which may end the strike. It was said today that the jurisdictional dispute for control of organized millwrights between the International Association of Carpenters and Bridge and Structural Iron Workers is a matter of prime importance which needs adjustment and that the Bridgeport conference will be held regardless of other developments in the situation.

Palmer, Mass., July 22.—About 200 men remained out at the Wright wire mills today as the result of the failure of the attempted arbitration between the com-

pany and members of the wire workers' union which is affiliated with the International Association of Machinists. About 300 hands are employed under normal conditions. The trouble started over the matter of wages. A police guard was maintained at the plant.

## NEW NOTE IS DEMAND

(Continued From Page 1.)

three weeks on those phrases. It is generally agreed among officials here, however, that any less of American lives in the meantime would in itself raise the question of action, irrespective of any formal reply from Germany.

The American note is in the nature of a final statement on the principles involved, which the United States takes the position that the accepted rules of international law must govern the rights of neutrals, irrespective of retaliatory measures of the belligerents against one another.

What action would be taken by the United States in the event of further violation of American rights is not disclosed in the new note was commented on otherwise here today, but a general understanding prevails that another disaster such as befell the Lusitania would mean the immediate assembling of congress.

President Wilson has given careful consideration of essentials to which the new American note may commit the United States, and he believes it places squarely on Germany responsibility for any act that may cause rupture.

There is now no indication the Lusitania case itself will cause a rupture, but the president has determined to keep that subject in the forefront as a diplomatic issue of first importance between the two countries. Pressure for settlement will be renewed from time to time, and if not adjusted by the end of the European war, will continue to impend in the relations between the United States and Germany very much as did the Alabama case in the relations between Great Britain and the United States after the Civil war.

## Tires That Fell Looked Like Goodyears at the Start

Don't trust looks in buying tires. Great tires and skimpy tires, in plain treads, look about alike. The vast differences are hidden. The Goodyear extras on our output this year will cost us \$1,635,000. That's for five great features used by no one else, and for other features commonly employed. Yet you cannot see them.

In addition, it costs us \$1,000,000 to make our All-Weather tread double-thick. That means deep, enduring grips. Yet dozens of regular treads, with shallow designs, pass for anti-skids.

**ORDER ALL CHRISTIANS TO LEAVE TURK CITY**

Paris, July 22.—A Haras dispatch from Athens says:

"Turkish military authorities according to advices received from Yeda (a port in Smyrna, on the Gulf of Smyrna) have ordered all Christian women and children to leave the town and go into the interior. Many of the residents refused to obey the order and a fierce struggle followed, in which many were victims."

"The Greek government has received reports of the prosecution of Greeks in Turkish territory. The delay is attributed to the difficulties of communication."

"Some of the newspapers are urging the government to assume an energetic policy in dealing with Turkey."

**Trade Commission Arrives In Cincinnati**

Cincinnati, July 22.—The Federal Trade Commission arrived here this morning to hold morning and afternoon sessions in its investigation of sentiment throughout the country on the subject of foreign trade.

The program for the day called for short addresses by President T. O. Powell, of the Cincinnati Chamber of Commerce and by Chairman Joseph E. Davies of the commission, and after that statements by a score of local exporters.

**Modifies Order On Express Companies**

Washington, July 22.—The interstate commerce commission decided today that the revenues of the principal express companies of the United States were inadequate and modified its former orders to provide additional income. The fabric of the present express rates is composed of three factors: an allowance of twenty cents for collection and delivery of each shipment, which does not vary with weight or distance; a rail terminal allowance of twenty-five cents per 100 pounds which varies with the weight but not

with the distance and the rail transportation rate per 100 pounds which varies with the weight, the distance and the zone. In accordance with the petition of the companies the commission modified its order to permit transportation of the first and second factors.

**LUSITANIA CLAIMS SLOW IN COMING**

Washington, July 22.—No actual claim for damages on account of the Lusitania disaster has yet been filed with the state department. This is due both to the fact that the question is bound up in the exchange of notes with Germany on submarine warfare generally and to lack of knowledge on the part of the prospective claimants as to methods of procedure.

Many inquiries, however, have reached the department, including one that came today from New York in behalf of one of the passengers rescued from the Lusitania.

No claim has yet been presented in the case of the American steamer Nebraskan for whose damage Germany has admitted its liability.

**ASKS WILLIS TO FIND HIM A WIFE**

Columbus, July 22.—Governor Willis was asked today to help find a wife, widows not barred, for Edwin L. Lovekelly, of Waverly, New York, who wrote that he was an orphan of the San Francisco earthquake of 1906. These are the qualifications which Lovekelly demands of his future wife:

"She must be of educational ability, a lover of home, like the farm life and have some means, an American by birth and of stout build and not over 35 years of age. I am of Irish-American birth and age 25, brown eyes, brown hair, of light complexion, do not smoke, drink or chew, and am college educated. Five feet, 8 inches tall, weight 166 pounds and interested in poultry farming. Those who like farm life are well to get busy and take advantage of this chance."

"Those who write please enclose photos in your first note and if it meets with my approval I will do likewise. If not, will, of course, do otherwise. I will not answer any general delivery addresses and please send letters, but no postcards. Widows are welcome to write if they wish. Please have my letter published in some of the leading daily papers of your state."

**EDITORS' PROGRAM ANNOUNCED**

Columbus, July 22.—The program of the mid-summer meeting of the Ohio Associated Dailies at Cedar Point, August 6, has been made public here. One of the important features of the meeting will be a discussion of the new Volstead law, the county financial statement bill which repeals the old county commissioners' report and auditor's exhibit. A. V. Donahy, state auditor, and Joseph Tracy, state accountant, will address the editors and publishers on this general topic.

B. J. McKinnery, of Marietta, will make a report for the committee. The meeting will be presided over by G. W. C. Perry, of Chillicothe, president; L. H. Brush, of East Liverpool, is secretary.

**900 OVENS ADDED IN COKE REGION**

Connellsville, Pa., July 22.—Nine hundred ovens were this week added to the producing capacity of the Connellsville coke region, bringing producing possibilities to 400,000 tons a week, if all were in blast. That point, however, was not reached. Reported production has been 311,000 tons, with shipments of 5,000 tons over the preceding week. Furnace ovens in operation are 76.5 percent of the total and merchant ovens 62.8. Labor is sufficient and operators are not yet worrying on that score.

**VERDICT FOR DEFENDANT**

Damages for \$300 for alleged personal injuries sustained in a fall while working on a porch, asked by Elbert McDougal, 18, through his guardian, Jack Osborne, from James A. **Conference Has Been Postponed**

Through a misunderstanding the conference arranged for between John Linck, the new director of public safety and attorneys for the dismissed student nurses of Hempstead hospital, to take up the matter of their reinstatement failed to materialize Thursday.

The attorneys seem hopeful that the conference arranged for between Director Linck would reinstate the nurses or at least take care of as many as he could. The claim was made that a delegation of railroad men called on the attorneys Thursday and urged the reinstatement of the entire student body.

**APPEAL SUTTON CASE**

Petition in error, carrying it to the court of appeals on behalf of the wife, in the Sutton divorce case was filed in common pleas court Thursday by Attorneys

Bannon and Bannon. In common pleas court some time ago the husband, James H. Sutton, was granted a divorce and \$1500 alimony from Mary E. Sutton.

**NEVER ANY DOUBT CONCERNING GUILT WHEN YALLER'S CAUGHT**

"Guilty," said "Yaller" Lottell with a decided tone of voice when arraigned in police court on a drunkenness charge Thursday morning. "There's never any doubt, Van," commented the court. The surprising thing of it all was that Lottell had enough money in his slip to pay a fine but

he preferred working on the streets to separating himself from the "kale" and was accorded that privilege. He was arrested Wednesday night for sleeping off a jag in the stable at the rear of Muller Bros. meat market.

**OBITUARY****Louis F. Schuler**  
The funeral services of the late Louis F. Schuler were conducted from the German Evangelical church Thursday afternoon, at 2:30, by the Rev. Samuel Lindeumeyer. Short services were held at the home No. 1649 Sixth street, at 2 o'clock. Interment was made in Greenlawn.

Louis F. Schuler, son of Leonard and Anna Schuler, was born February 12, 1861, in Portsmouth, O., and died July 20, 1915, at his late home, 1649 Sixth street. He has been in poor health for about four years, with bowel trouble. Before taking ill he was an apprentice at The Heer Engine company's plant. He leaves to mourn his death, a widowed mother, his father having died when Louis was eleven months old. The out-of-town relatives who came to attend the funeral were Mr. and Mrs. Dan Ruth, of Oak Hill, Mr. and Mrs. John Smith and son, Fred, of Powellsville, Mrs. George Smith, of Lyra, Mrs. Harry Ransau, of Mount Vernon, Mrs. Teitelmoeller, of Newport, Ky., Mrs. Louis Davies, of Columbus, O.

Louis was of a kind, quiet disposition, and many friends sincerely regret to learn of his death. He was a most estimable young man and bore his pain and suffering with patience and cheerfulness. To know Louis was to love him. His mother has the deepest sympathy of a host of friends in her sorrow.

**Mrs. Marie Opperman**  
Charles Justice, special policeman at the Pelee bath beach, and wife, returned home Wednesday night from Columbus, where they attended the funeral of his aunt, Mrs. Marie Opperman, aged 42 years, who died of complications. Mrs. Opperman was the wife of G. W. Opperman, a stove moulder, and formerly lived at Ironton. Besides the husband she leaves a son, Charles, and two daughters, Myrtle and Florence. Mr. Justice's mother, Mrs. John Justice, of Ironton, also attended the funeral.**Mrs. Clara Pitts**  
A victim of dread cancer, Mrs. Clara Pitts, 42 years of age, wife of James Pitts, an employee of the C. E. Turner commission firm, passed away at two o'clock this morning at the home of her mother, Mrs. Alice Spriggs, of Joseph, Ky. She had gone to her mother's home seven weeks ago in the hope of benefiting her health.Surviving relatives include her mother, the bereaved husband and four children, Virna, Etta, Willie and Tora.  
Mr. and Mrs. Pitts had made Portsmouth their home for the past seventeen years. She was a faithful member of the School Land Hollow Christian church, near New Boston, and will be buried Friday in the cemetery there. The funeral services will be held at the New Boston Christian church Friday afternoon, at 2:30 o'clock.

A true and loving wife, a good mother and a kind and obliging neighbor, Mrs. Pitts was popular with a wide circle of friends in the city, who will be saddened at the news of her death. The bereaved relatives have the consolation of knowing they have the sympathy of all and that she died sure of eternal salvation.

**Mrs. Alma Sisler**  
A life of loyalty and service was brought to an earthly close when Mrs. Alma Sisler of 918 Fifteenth street passed to her heavenly reward. Mrs. Sisler was born Sept. 15, 1871 at Haverhill, Ohio, and died July 19, 1915, aged 43 years, 10 months and 4 days.

Her maiden name was Williams, she being the daughter of John and Sarah Jane Williams. Her young days were spent in the vicinity of the place where she was born. On May 9, 1900 she was married to Charles Sisler, who, with seven children, survive. The children are: William, Carl, Clifton, Leona, Floetia, Jenetta and Edward Rogers. She is also survived by three brothers and three sisters: Thomas and Elmer, of Marion, Ohio, William, of Wheelersburg, O., Mrs. Mary Martin, of New Boston, Mrs. Elmina Green, of Conlton, O., and Mrs. Electa Pether of Peebles, O.

Mrs. Sisler was a devout Christian woman and a devoted wife and mother. The sympathy of the entire community goes out to the bereaved husband and children. Gladly would we comfort the bereaved ones, but the words that heal the broken-hearted are not spoken by mortal man. As there is a day of parting there is also a day of reuniting and unto him who knows our every sorrow, we commend your hearts.

Taken away from husband and children the youngest but six months old, it is hard for us to realize the wisdom of our Lord in the death of Mrs. Sisler. But let us remember that He has said "All things work together for good in them that love the Lord" and when husband wife and mother and children and brothers and sisters are reunited the wisdom of it all shall be made plain. The funeral services took place from the home Thursday at 12 o'clock and were in charge of Rev. Hooper of the United Brethren church of which Mrs. Sisler was a devoted member. The remains were taken to Wheelersburg, Ohio, and laid to rest in the cemetery at that place.

**Albert Campbell**  
The Ironton Irontonian of Thursday morning said:

A telegram has been received here to the effect that Albert Campbell, of the state of Washington died Sunday. He was a brother of Charles Campbell of Hecla.

The telegram was sent to his brother here but he was away, being at Lexington, Ky. No particulars have been received regarding the funeral.

**Mrs. Sisler Funeral**  
The funeral of the late Mrs. Alma Sisler, of 918 Fifteenth street, will be held from the home today (Thursday) noon, at 12 o'clock, with Rev. L. J. Hooper, of the United Brethren church in charge of the last rites. Interment in Wheelersburg cemetery.**Ola Holt**

That's too bad, old man, but you know nervousness is largely due to wrong habits of eating and drinking. If you would quit coffee and use Postum your nerves would steady up.

Postum tastes much like fine, mild Java but there's no drug in it—that's where it's got coffee beat a mile.

Sound advice.

More and more, people are waking up to the harmful effects of caffeine—the drug in coffee—a frequent cause of nervousness, heart flutter, dizziness, headache and other ailments.

**Instant Postum**

is the soluble form of the original Postum Cereal. A level teaspoonful of the crystalline powder in a cup of hot water makes a delicious food-drink instantly. 30c and 50c tins.

The convenience of Instant Postum is seen at a glance, but some prefer the original Postum Cereal which must be thoroughly boiled—15c and 25c packages. Grocers sell both kinds and the cost per cup is about the same.

A change from coffee to Postum has been a good thing for thousands.

**"There's a Reason"**

# Miss Dolly Wise

Who is here to answer any and all questions concerning love, matrimony, troubles, woes, enigmas, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 80.

Dear Dolly—I have been going with a boy who lives in another town for some time. He goes with another girl that isn't considered very much. What should I do, quit him? He has never broken any days so far.

JUNE.

If you are quite sure he goes with a girl of questionable character, quit him of course. However, if you just imagine he does, better give him the benefit of the doubt until you find out more about him. In the meantime you might do a little investigating or else come right out and ask him.

Dear Dolly—I am very thin and want to get fat. I have tried everything but still I don't seem to gain a pound. Is there any cure for people that are near-sighted? Would an operation help?

L. E. G.

Why should you get fat? I read an article the other day which said that thin folk would live longer than fat ones. If I knew of anything that would make one fat I'd take it myself. Worrying about getting fat probably keeps you thin. About near-sightedness, I should advise you to consult an oculist. He can give you glasses to remedy the near-sightedness.

Dear Miss Wise—Will you please tell me if Mrs. W. H. Schwartz is to run for election as a member of the board of education, and if women are required to register in order to vote for members of the school board?

A SUBSCRIBER.

Women who expect to vote at the primaries on August the 10th must register either Friday or Saturday of this week. Mrs. Schwartz is a candidate for a member of the school board, having been endorsed by the Mothers' Club of the Fourth Street School. Women over 21 years of age, married or single, are permitted to vote for members of the Board of Education, and it is hoped they will avail themselves of this opportunity.

Young Student—No I wouldn't. They didn't defraud the public, they just caught a big sucker when you bit. You are a mighty "green" student, I'll say.

Dear Miss Wise—Please tell me which hand and finger is the engagement ring worn upon. How long should this token be presented prior to the wedding? What ceremony should be attached to the presentation of the ring? What hand and finger is the wedding ring worn upon?

A YOUNG MAN.

I shall answer your first and last question together. The engagement ring is worn upon the

third finger of the left hand, and the wedding ring is worn under the engagement ring. The engagement ring is slipped off while the wedding ring is placed, and returned immediately after that. There is no rule about wearing an engagement ring a certain period before the wedding. From three to six months is the usual time. I should think your own feelings would suggest the proper ceremony for presenting the young woman with an engagement ring.

Wamsley, O.—Dear Dolly—Who was the composer of the song "Beautiful Isle of Somewhere"? Dolly I am thinking of attending the Chautauqua at a certain small town and am going to attend. Now please tell me how many dresses I should have and what kind?

"THANK YOU."

J. S. Farris composed the music and Jessie R. Pounds the words. Take a suit and some pretty thin blouses. You won't need any fancy dresses if you are not going anywhere only to the Chautauqua. However, if you have any light dresses you could take them along.

Dear Miss Wise—I am twenty years old and I have never had a boy friend. I am considered homely and unattractive. I suppose there is no use in my even hoping to have a boy like

me, some day, but I do. I have blue-green eyes and my hair is thin and straight, and I am thin and tall. My complexion is fair, good; it never breaks out, but it is colorless. Can you suggest anything that will make me any more attractive?

UGLY GIRL.

Be clean and neat in your personal appearance. Dress as well as you can and with simplicity. Overdress would draw attention to you and would make you feel awkward. Be kindly, thoughtful of others and ever interested in what is going on. Improve your mind and you will find that as it improves your personality will grow more pleasing. A girl does not need to be beautiful to be loved by a man. Just think of all the unattractive women you know who are married. You are very young, dear, and have no occasion to worry yet.

Dear Miss Wise—Here is a nice way to can beans. One gallon of beans, one gallon of water, half cup of sugar, half pint of vinegar. Boil thirty minutes, after they begin to boil. Seal while hot. When the beans are opened for use, wash in clear cold water. I have enjoyed so many nice recipes from your column I should like some one else to have my way of canning beans. I "snup" the beans at night, then they are ready for cooking the first thing in the morning.

Sunday morning, after going through the regular Sunday school work and having listened to a very instructive sermon from the pastor, Rev. Bostick, the Valley Sunday school of South Webster enjoyed one of the pleasantest outings in its history. The outing was held in the Slaven's grove, near the church. An elaborate dinner was served, having been prepared by the ladies of the Sunday school. The young men's class treated to ice cream and lemonade. The afternoon was pleasantly spent by all. The children engaged in games and the older people in social chats. At four o'clock the table was again uncovered and supper eaten before leaving the grounds. Those of the Sunday school present were as follows: Mr. and Mrs. B. F. Gilliland and family, Mr. and Mrs. F. C. Gilliland and family, Mr. and Mrs. O. C. Gilliland and family, Mr. and Mrs. U. K. ## TIMES SERVICE PATTERN 1357

1357. A popular, becoming dress for mother's girl.

Girls' Dress with two styles of sleeve, and with or without pettup.

As here shown white linen was used, with dotted percale for trimming. This style is also nice for gingham, chambray, percale, linen, ratine, messaline, poplin, taffeta, cashmere or challie. In galatea or seersucker it will make a serviceable school dress. In serge combined with checked or plaid sitting, or for either of these and other woven materials it is an excellent style. The pattern is cut in 4 sizes: 6, 8, 10 and 12 years. It requires 3 1/2 yards of 36-inch material for a 6-year size.

A pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

Orders for patterns are forwarded to New York to be filled, hence it requires several days for the pattern to reach the purchaser. Patterns can not be ordered by telephone. Do not use postage stamps for larger denomination than two cents.

CAUTION—Order adult patterns by number of pattern, giving bust measure for waist patterns, and waist measure for skirt patterns. For Misses and Children give number of pattern and age only.

# "THE POINT" IS INCLUDED IN FLOOD PROTECTION

## Council Gives City \$70,000 To Extend Wall And Repair Gap At The Point

Due to appeals from civic organizations of Portsmouth, city council Wednesday night in providing the necessary legislation for extending the flood wall arranged also to meet conditions at the Point, caused by the 1913 flood.

The \$70,000 bond issue ordinance passed by council under a suspension of the rules is believed to be sufficient to cover the cost of providing permanent flood protection at the Point. One option towards acquiring the necessary property or right of way is reported taken. The matter of preparing plans and estimates and recommending a route as soon as possible for the wall was upon motion of Judge Osborn placed in the hands of the service department, engineer and street committee.

Engineer Wilhelm reported that, Right of Way For Mabert Road. Director Gergens of the service department, reported having secured rights of way for the proposed improvement of Mabert Road from all property owners save one. Mrs. Appier, who was demanding \$250 for a narrow strip, although some residents of that vicinity claimed that she was on the street line. Mr. Shump urged early action for the project and said certain heavy property owners there were sufficiently interested as not to allow \$250 to stand in the way of the improvement and advised that the matter be taken up with them at once. Referred to street committee.

### Council Receives Resolutions

The resolutions presented and read to city council, with the announcement that a similar set had also been received from the Board of Trade were as follows:

"Whereas, the flood wall at the west end of the city was washed out during the flood of 1913, thus rendering all flood defenses useless over the height of fifty-seven feet, and

"Whereas, the city council is taking steps to build a new flood wall extending to the East End of the city which is to be further protection to the low ground of the city.

"Be it resolved, that city council be asked to afford the city the protection which the old flood wall was supposed to give, namely to a river height of sixty-two feet.

"That the protection decided by council be permanent in its construction and of benefit to all citizens.

"That the city council be asked to take steps at once to protect the gap torn out by the flood, so that a rise in the river during next winter shall find us fully protected.

"That the Business Men's Association will render council all aid necessary to accomplish this purpose.

"That a copy of this resolution, signed by the proper officers be presented to city council and recommended for immediate action."

### Appropriations Are Passed

Ordinances were also passed providing for the semi-annual appropriations for carrying on the work of the various city departments for the remaining half year; providing \$880.50 for the construction of the Adam Pfau sanitary sewer; appropriating \$270.30 for water main extensions on Jefferson street; \$2500 for the city's proportion of paving Kendall avenue, Armstrong place and Linden avenue; reducing the bond of the Central National bank as a city depository from \$50,000 to \$25,000 and that of the Portsmouth Banking company from \$50,000 to \$25,000 and an ordinance to proceed with the paving of Gay street from Eleventh to Thirteenth street. A similar ordinance to proceed with the paving of Garfield street or the old Chillicothe road was not prepared in time. City Solicitor Stanley McCall having developed another attack of illness which detained him at home.

## NOTICE TO THE TAXPAYERS OF THE COMPLETION OF THE TAX LISTS

Notice is hereby given that the Tax Lists of Scioto County, Ohio, for the year, 1915, have been completed and are open for public inspection at the office of the District Assessor at Rooms 15 and 16, Krieger building, in the city of Portsmouth, Ohio.

Complaints against any valuation or assessment, except valuations fixed and assessments made by the Tax Commission of Ohio will be heard by the District Board of Complaints at its office at Rooms 15 and 16, Krieger building, in the city of Portsmouth, Ohio, on and after the first Monday of August, 1915. Complaints should be made in writing on blanks which will be furnished by the District Assessor and filed with the County Auditor. Complaints may be made on and after this date and during the time said District Board of Complaints is in session.

F. B. M. CORSON,  
District Assessor of Scioto County  
Portsmouth, O., July 21, 1915.

er, which will take care of eight families facing on Gallia pike is \$500.

Engineer Wilhelm suggested the need of an invert in the center of the lower part of Armstrong Place to meet the sewer at the other end. President Cook, who is personally familiar with the situation in that vicinity, spoke of the peculiar conditions, saying shale there made walks and drainage almost impossible unless a sanitary sewer be constructed and urged that the engineer give this immediate consideration. The engineer said the drainage could be diverted to Brewery Hollow but questioned whether such were permissible with an open ditch.

Clerk Gablenen reported having discovered in perusing the court news of the Cincinnati Enquirer that the city of Akron had succeeded in securing a reopening of the case brought against it by Frank A. Bone for alleged infringement of patent in the construction of a flood wall.

The clerk read his monthly financial statement showing a net balance in the city treasury of \$46,909.99.

### Recommend Paving Of Three More Streets

The clerk reported that the street committee had recommended the paving of three more streets this year and that it was necessary to provide the city's proportion of the cost. The streets are: Kendall avenue from Gallia to Eighth street \$7,486.20, city's proportion \$1508.35; Linden avenue \$4,522.32, city's proportion \$489.55; Armstrong Place \$2600, city's proportion \$502. Referred to finance committee and solicitor to present resolutions assessing property owners. The city's proportion is covered in the \$2500 bond issue passed for all three streets.

## Fresh Air Camp Is Located In An Ideal Place; Plenty Of Good Air, Wholesome Living

Not a camp site within miles of Portsmouth compares with the site of the Fresh Air Camp for tubercular inclined patients on Mabert Road north of the city. Not until after one pays a visit to the Fresh Air Camp can they realize what a health resort the camp is. The camp is a crude building but just the kind that is needed for tubercular patients.

The camp site is on an elevation higher than St. Mary's church spire on Market street and is located about a mile from Gallia pike.

The Ohio river in the foreground forms a very picturesque sight for the patients. The camp overlooks Timmonds hill and a part of Gallia pike, can be seen from the front porch. If there is one bit of breeze stirring, the camp patients get it. The screened porches and three almost plain living rooms are always filled with pure fresh air. The camp greatly impresses all who visit it. It is away from all the stifling breezes of the city, located as it is among the trees.

There are three and one-half acres of ground in the camp site but very little space is occupied by the present building.

The camp is on a terrace a short distance from Mabert Road. The building consists of three rooms and two porches. The kitchen is large and roomy and fully equipped with every necessity of a camp.

The dishes used by visitors to the camp other than patients are first washed and put away in their different compartments. The dishes touched by the patients are then put on and boiled thoroughly, sterilizing them. Before going to the table every patient scrubs his or her hands with their own brush. The nurse sees to it that the food is wholesome and adapted to the needs of the patient. The supply room where the medicines and other necessities are stored adjoins the kitchen. The front or east room is the lounging or reading room furnished with a stand, cut, several chairs and papers and books.

The north porch in the shade all afternoon is screened and is used as the dining room. A porch swing is also to be found as the porch can be used by the patients in the time of rain. The front porch on the south is screened and is used for sleeping purposes. Patients get plenty of fresh air at all times. The coils are clean and well ventilated. The porch is divided into two sections, one for men and the other for women.

The camp at present has five patients, two men, two boys and a woman. One of the men is the gardener and is busy cleaning up the grounds. West of the building is a small garden plot where corn, beans, lettuce and tomatoes are growing. The garden is small but as the ground is very rich more of the soil will be tilled next year and a large garden planted. The water supply is from a well on the hillside some fifty feet above the house and is piped to the north porch, a few steps from the kitchen door.

Sputum cups made of thick paper have been provided for the patients and after being used three or four times, are burned. A patient is not allowed to expectorate on the floor or on the grounds. Everything possible is done to prevent the spread of the disease. In no way are visitors in danger of catching the disease.

Each day after dinner two quiet hours are observed when the patients may sleep, read or write, but they must be quiet. Rest plays an important part in the cure of tuberculosis.

The main objects of the Fresh Air Camp are to teach the patients how to take care of themselves at home. They are taught the essential things of how to cure themselves at the camp and after a short stay there are able to go home and take care of themselves the same way as they were taken care of at the camp.

Physicians say that the majority of the people have the idea that they have to go away to be cured and this a great many refuse to do as they do not want to leave home. They can go to the camp where it is more home like and get the same treatment as they would receive at any of the large sanitariums.

Home folks can visit them every day and such a thing of home-sickness is dispelled. Their stay at the Fresh Air Camp is a very delightful one and patients that

have been there have remarked that they would like to stay there all the time.

No bedfast patients are admitted to the Fresh Air Camp. From twelve to fifteen can be taken care of.

The Fresh Air Camp is a camp and not a hospital. A number of people have this erroneous idea and a short visit to the camp would soon correct it. The disease is curable as is any disease if treated soon enough. Only curable patients are accepted at the camp. All who are able to pay a small fee for their board are expected to pay but the greater majority are free patients.

The sleeping porch is soon to be provided with awnings to keep the sun out in the afternoon and to prevent it from raining in on the porch. The screens prevent all flies and mosquitoes from bothering the patients.

Those in charge of the work wish to thank the Home Telephone company for the telephone they installed free.

Visitors are welcome on Wednesday and Sunday afternoons between the hours of two and five. Friday afternoon will be visitors' day at the camp when everybody is invited to inspect the camp.

Nurses, physicians and those who contributed to the camp, are especially invited to attend. Dr. C. W. Wendelken, secretary of Scioto County Society for Prevention of Tuberculosis, has arranged with the jitney drivers to take visitors to the camp site Friday. Light refreshments will be served by the following committee: Mrs. G. W. Grimes, chairman; Mrs. Cornelia Treuthart, Mrs. S. P. Balmert, Mrs. Henry Distelrath, Miss Ida Herms, Mrs. Arthur H. Bannan.

### DANGER IN DELAY

Kidney Diseases Are Too Dangerous For Portsmouth People to Neglect

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease may follow as the kidneys get worse. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in Portsmouth.

S. A. Ingles, engineer, 715 Mill St., Portsmouth, says: "I think exposure to the extremes of heat and cold when I worked at the ice plant, brought on kidney trouble. When I bent over to pick up a cake of ice, a sharp pain caught me in the small of my back and I could hardly raise up. The kidney secretions were scanty, contained sediment and burned in passage. I read how someone else had been cured by Doan's Kidney Pills, so I got a box at Hager's drug store. I felt relief right away and one box certainly fixed me up in fine shape."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ingles had. Foster-McMillan Co., Props., Buffalo, N. Y.

# TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

# IRONTON SMOTHERED UNDER AVALANCHE OF HITS

## Bingles Fell All Round Irontonians, Score Was 12 to 4

USING a September Morn ball, that is one that did not have anything on it, Pitcher Reams of the perfectly good and well balanced Ironton team was hammered to all corners of the lot in Wednesday's battle at Millbrook park, the score being 12 to 4 when the game ended in the ninth, the Spencerites being on the long end of it.

No matter where Reams threw the ball it crashed into a bat wielded with vigor and accuracy and he was touched up for 17 safe and sane raps, netting 20 bases. The first cluster of tallies came in the third when five were scored and the trick was turned so easily and handily that it was repeated in the fifth much to the gratification of the fans who took a slant at the afternoon's pastime.

For two innings it looked like a real ball game, but when Portsmouth began its cannonading in the fulsome third Reams was permitted to stay on the mound and he received an unmerciful beating. The merciful Spencerites not satisfied with five runs proceeded to pile up all they could and the contest soon degenerated into a slugging exhibition, Portsmouth doing all the slugging.

When the team had a breathing spell in the hitting line it would by way of diversion steal bases on McDaniel's or make a few fancy stops when Ironton lined up at the plate and glimpsed the pill as slipped by one pink-checked Larry Jacobus. Hauling out his Over-the-hill-blue Jacobus was very effective and had he not eased up in the eighth the enemy would have been completely routed and sent home bailed in whitewash. But Larry has been "brot" up differently. He was always told to respect the poor and needy.

The five runs in the third were produced by five of the cleanest hits that any bunch of players ever drove out, each blow was good for a tally in this rally and the explosions came after two were down. Rush and Jacobus for a starter were put away by Perry and Taylor and it was a 5 to 1 shot that no scoring would be indulged in. But well, Dills got a blow, so did Billy, Shannon and Johnson and Caton out in with a triple. Then he stole home and five runs were across.

In the fifth passes to McHenry and Spencer a single by Bush, an out by Jacobus, Olson to Taylor and hits by Dills, Shannon and Johnson were productive of five more runs. The last Portsmouth run came in the seventh when Spencer, Jacobus and the Dills boys biffed the leather to unguarded spots.

Ironton's four runs came in the 8th. Taylor drew a pass and Cubert, Gilmore and Perry singled in rapid succession, three men scoring and Perry scored an out. In the ninth Sladfelt was thrown out by Dilly, a fine play. Taylor singled but Cubert and Gilmore were thrown out by Dilly and Bush.

There was nothing to it but Portsmouth in this one. The same teams go to the mat today.

**Reams Easy For Spencerites**  
Pitcher Reams has not won a game from Portsmouth this season. Every time he is trotted out Portsmouth scores a victory. Reams has lots of speed, but no change of pace. He has won a lot of games at that for the Taylorites.

NOT WORTH \$200 IN 1913; NOW \$20,000!

Owner Navin of the Tigers writhes in agony every time he reads a line about Guy Morton of the Indians these days. Guy would have been a Tiger a couple of years ago had a Detroit scout made a favorable report. Morton could have been purchased at that time for \$200; today Navin would give \$20,000 for the Cleveland.

Guy Morton.

The scout's report was that Morton's delivery would be ineffective in the major leagues, and also, the chances were against him lasting long in any league "because of the unusual exertion he put on the ball." Instead of Morton the scout recommended the purchase of McGreevey, a pitcher once heard of, but scarcely remembered. With a pitcher of Morton's class the Tigers would be clean favorites in the pennant chase.

## Scored From First On One Base Hit

Ralph Shannon gave as fine an exhibition of base running in yesterday's game as has been seen in Millbrook for many seasons. He was on first when Johnson slashed one over second. When the ball was hit Shannon was all set for second as the hit and run was on. Rounding second he did not halt at third when he saw Gilmore make a slow return of the ball and he kept right on coming home, reaching the plate without making a slide. It was some sprinting.

## SMOKY JOE IS A REAL COME BACK

Smoky Joe Wood of the Boston Red Sox is pitching the best ball of his career and if he keeps it up there is small doubt but what the Red Sox will be the winner in the American League. It is said that the speed merchant has more speed than ever.

## THE "HOME SICK" BABES

Pipe this from the Chillicothe News: With the beginning of the new season Tuesday the home-sick Babes were given a new start in the Ohio State league race. They dropped their opener, but it was by the narrowest margin. Whaddayou mean, home-sick Babes? They have a real home now.

## Pilfered At Ease

The Portsmouth team had no trouble in stealing bases on McDaniel's, in fact they stole everything "Cluck" had but his spiked shoes and they were clamped on. And it was no fault of McDaniel's that the gang of burglars of the local team ran wild on the bases as Johnson failed to hold the runners on and no one could have stopped the thefts boldly perpetrated yesterday.

## May Join Cleveland

From Cleveland comes a report that Outfielder Billy Nixon of the Cleveland A. A. team will soon be playing with the Cleveland American League team. Nixon, who played here several seasons ago, is hitting like a fiend this year. In a recent double header he was up 9 times and cracked out 7 hits.

## Baseball Pool System Is Bared

Cincinnati, O., July 22.—The National Baseball commission look official cognizance today of the so-called nationwide baseball pool which the postoffice department at Washington has been investigating when Attorney John E. Bruce, of Cincinnati, secretary of the National Baseball committee, appeared as a witness in the case of Edward Hardy of this city, who is charged with conspiracy and promotion of a lottery. The hearing was before United States Commissioner Joseph Adler, who at its conclusion held Hardy to the grand jury at Philadelphia in bond of \$10,000. Hardy gave the bond required for his appearance next September before the grand jury of that city, where, it was stated by Commissioner Adler, all of the cases growing out of the federal investigation of the alleged baseball pool will be taken up.

Secretary Bruce in his testimony spoke of the danger of the so-called pool to the sport of baseball, and, as a representative of the commission, requested that it be eliminated.

## SOFT FOR BAG OLD BOY

After locking up the park his days work was done. His team won 5 to 3. The Browns are in the first division of the Texas league and Baggan is playing brilliantly almost every day. The San Antonio Express recently published his picture accompanied by fulsome praise.

## Caton Is There

How did he do it? Well, howdy "just went and done it." Watch "at him." He secured three blows, one a sweet-scented triple yesterday and stole home just as cleanly as any member of the light fingered brigade ever ripped a tag off a dresser in Liza's room. His three cushion swat was to the pennant pole. This boy Caton is some ball player.

# DEMAGOGUES, PEANUT POLITICIANS, SCANDAL MONGERS, ETC. SCORED BY MISS LOWE IN CAUSTIC LETTER

Miss Helen J. Lowe, who resigned as superintendent of Hempstead hospital Wednesday, expects to remain in charge of the institution until August 15th to give ample time for the city officials to engage a competent person to succeed her.

Further correspondence of an interesting nature has taken place between Miss Lowe and the mayor on the subject of her resignation. The letters follow:

Portsmouth, O., July 21st, 1915.  
Hon. Adam Frick, Mayor  
of the City of Portsmouth, Ohio.  
Dear Sir:

I am just now in receipt of your communication relative to my resignation as superintendent of the Hempstead hospital and am pleased to note that you are in accord and approve of my action therein.

It has been my desire to take this step before this time but I have felt that under existing conditions that the best interests of the hospital would not have been served by so doing. There are a number of things that have led to my resignation, some of which are so well known to you that I need not state them here but the chief reasons are set out in my formal resignation to Safety Director Linek. It is a most difficult task to manage a hospital in a way that will be pleasing to its critics, to political demagogues, peanut politicians, scandal mongers and at the same time give the service and attention that the sick and distressed should, and are entitled to receive at the hospital, and this could not have been done and the hospital placed upon its present high plane of efficiency had it not been for the unqualified support and co-operation of yourself as mayor, your subordinate officials, and the great number of sympathetic, high-minded and patriotic citizens of this city, to whom a generous amount of the credit for the success of Hempstead hospital and its present high standard of efficiency is due.

I beg to say that as superintendent of this institution I have acted solely from a conscientious standpoint and have earnestly sought to do my duty as I best judgment directed me, and I have the satisfaction to know that Hempstead hospital is now second to none of its kind in this state as to its equipment and the care of its patients, a fact that is recognized beyond the limits of this city.

It is gratifying to me and perhaps may be of interest to a position to know that a tender of my friends in my line of work has been made to me at Cincinnati, Ohio, which carries with it a very substantial increase in salary. This position has been open to me for sometime, and I only mention this fact to assure you that I have remained at my post here solely as a matter of duty.

I want to express to you personally as mayor, and to Dr. Lake your former safety director, and to all the high-minded, public spirited people of this city who have given me so much help and encouragement in my efforts to improve conditions at your hospital, my sincere thanks and earnest appreciation, and when my successor is named, it is my hope that she will receive the same support from

the administration and people as I have received, and that she may be spared the extra burdens and difficulties heaped upon me by those who have heretofore been seeking to destroy the influence and efficiency of the hospital in their efforts to gain some personal advantages politically or otherwise.

Again thanking you for the encouragement and good will contained in your recent letter and wishing you success and the support of all good people of this city in your effort to build up and improve the city in all the departments and conditions, all of which you so richly deserve.

I am yours truly,  
HELEN J. LOWE.

July 21st, 1915.  
Miss Helen J. Lowe,  
Sup'l Hempstead hospital,  
Dear Madam:

In acknowledging receipt of yours the twenty-first instant replying to my communication under same date with special reference to your tender of resignation permit me to say:

I want to thank you for your very kind words of encouragement and appreciation relative to the support given you during the tenure of office with this administration, and to assure you that I am certain that those of our citizens, who, at the instance of the director of public safety, furnished wards in this hospital when it was built, and who to their great surprise found, when you took over this work, their equipment so uncareful for that such was no longer suitable, and who so willingly refurnished their wards with the very best beds, dressers, bedding, rugs, draperies, etc., are very sorry to lose you as the guardian of their donations.

As well as it is my opinion that the respective doctors who now find so much in the way of conveniences about the operating room, such as an up to date surgeon's table, responsive water service and other like necessities will also hesitate to see you leave the institution.

It is with pleasure that we note you have the tender of a position in a very large hospital, and by way of encouragement want to say that there is no doubt but that you will execute the service creditable to yourself and profitably as well for the institution. We offer our best wishes.

With respect,  
ADAM FRICK, Mayor.

The officials are beginning to receive applications from various sources. Among the applicants is Miss Hilda Strong, of Christ hospital, Cincinnati, who is highly recommended as a most competent nurse, and favorably known to some of Portsmouth's leading citizens.

Do not hesitate to promptly heed the warning your kidneys give you when they begin to tug in their work. When you feel those little "sneaky" pains in the "small of the back"; loss of appetite; highly colored urine; weariness you cannot account for—it means that your kidneys are not doing their work properly. The result may be fatal if neglected.

The remedy is a simple matter if you act promptly. Go to your druggist and get a box of genuine GOLD MEDAL Haefflem Oil Capsules. Braves, 4; White Sox, 3.  
Tiger Juniors, 5; Bear Cats, 2; (10 innings).  
Pirates, 19; Senators, 17.

**Braves Win**

After losing five straight games the Braves defeated the White Sox 4 to 3. Henshen and Becker pulled off a close pitcher's battle. Henshen winning because he kept his hits well scattered. Both the twirlers allowed seven hits. The White Sox rallied in the ninth and came near tying it up. Bravely and Green each secured two hits. The score by innings:

Braves: 0 0 0 0 1 0 3 0 4  
White Sox: 0 0 0 0 2 0 0 1 3  
Hits: Braves 7; White Sox 7.  
Errors: Braves 3; White Sox 2.  
Batteries: Henshen and Henshen; Becker and Finger.

**Tigers Win In Tenth**

The Tigers Juniors won from the Bear Cats in a ten inning game 5 to 2. The Tigers scored their first run in the fifth on three base hits and an infield out. The Bear Cats tied it up in the last half on a homer by Reeg. In the eighth Smith secured a homer putting the Tigers one to the good, but Reeg came back and tied it up with his second home run of the game. In the tenth Dillon who had allowed but four hits was hit hard and the Tigers piled up three runs. Chabot pitched great ball, as the hits secured off him were well scattered.

Hits: Tiger Jrs., 10; Bear Cats, 3.  
Errors: Tiger Jrs., 3; Bear Cats 0.  
Batteries: H. Chabot and Anderson; Dillon, Reeg and Adams.

**Twelve In Last Round**

The Pirates secured twelve runs off Phillips and George, Senator pitchers, in the first half of the ninth, overcoming a 9 run lead. Gilmore of the Pirates and George of the Senators were knocked out of the box but had to return as the pitchers who relieved them did not last long. Twenty-one hits good for thirty-three bases were scored by the Senators. Gilmore, Dever and F. Smith led at the bat with three hits each. This ninth inning rally is no doubt a record breaker as eight runs were scored with two out. The score by innings:  
Innings: 1 2 3 4 5 6 7 8 9  
Pirates: 2 0 4 0 1 0 0 12-19  
Senators: 0 0 2 1 3 4 0 1-17

**Pennant Day Program**  
Saturday is Pennant Day in the Boy Scout League. The exercises will be held at York park, at which time the Tigers, last season's champs, will be presented with their pennant by Mr. George D. Scudder, president of the Local Council of Boy Scouts. A double-header between the Tigers and Athletics will be the feature of the afternoon's program. The first game will be called at 12:30 p. m. This has been the most successful season of the Boy Scout league, every game being largely attended by enthusiastic fans. The games Saturday will be in charge of Umpire Lodwick.

## Diltz Cleans Up Things At Home; Police Are Pleased

William Diltz, a steelworker, enacted the role of raider of his home on West Eleventh street Wednesday evening, thereby ennobling the police to carry out what they themselves for some time past had vainly tried to accomplish.

Diltz was thoroughly angered over his wife causing his arrest the night before and going to his home he proceeded to "tear up the place." He chased out Katie Queen, Rebecca Badgley and Martha Howland whom he found in the house, declaring that he did not have to contaminate his home with such undesirable. They scattered to the four winds, but police gathered them in and they were locked up for the night.

Diltz wanted his wife prosecuted for harboring such women and said he would take charge and provide for their little boy.

The Diltz home was included among those the city recently tried to clear of undesirable but the couple claimed to own their property.

The Queen and Badgley women were reminded by the court Thursday that they had been a constant source of annoyance to the police department and were fined \$25 and costs each and sentenced to sixty days in the workhouse. Both admitted having been at the Diltz home. The other young woman said she had merely dropped into the Diltz yard to talk to the other girls. She said her home was in Wayne, W. Va.

Earl Strickland, son of Mr. and Mrs. Henry Strickland, of 1805 Grandview avenue, who three years ago enlisted in the United States Navy is now located in the United States Barracks at Philadelphia. Mr. Strickland before leaving the city was employed in the plant of the Portsmouth Steel Company. Writing to his parents Mr. Strickland says:

"We have just returned from a hike to West Chester, Pa. While there we took part in the unveiling of a monument to the Soldiers and Sailors and we had a fine time at camp. We camped on a place that contained one hundred acres that have sunken gardens, swimming holes and fine roads. The famous Marine Band from Washington, with 57 pieces, was down and enjoyed the trip with stirring music. The people of West Chester certainly treated us fine, as they sent us ice cream, strawberries, clam chowder and all kinds of sandwiches. The last day there the people provided us with automobiles and took the sailor boys to the battle field of Brandywine. There were 1,100 of us and we certainly had a great trip. On our hike back we averaged about 4 1-2 miles to the hour. Some of the boys dropped out and one man died upon arriving at camp and three more are in a serious condition. I made the trip nicely, but was awfully tired at the finish. The sun is very hot over here. I am as brown as a berry. The laying of the keel of the first ship to be built in the yard here will be celebrated tomorrow. An admission of 25 cents is charged and the proceeds will go to army and navy unions. There will be a dress parade, company drill, tug of war,

bent races, ball game and shelter tent pitching. They expect about 50,000 people in the yard. We put up hospital tents today, and the ambulance corps will be held in readiness all day.

"This is about all that I can think of that will interest you, so will close, with love to all."  
EARL.

Is a gang of fire-bugs operating in the city of Ironton?

Some people of that city firmly believe there have been, and that the recent fires there were of an incendiary origin, according to Ironton visitors in Portsmouth.

This theory was greatly strengthened early Thursday morning when fire of a doubtful origin broke out in the beautiful Scenic theatre building on Center street of that city and menaced other valuable property in the center of the business section of Ironton.

It was the third serious fire Ironton has had in three months, the first being the Masonic Temple fire, then the building occupied by The Fashion, a ladies' ready-to-wear store, being gutted, and now the Scenic theatre is practically destroyed.

Relative to this morning's blaze, the Irontonian said:  
"Ironton's fire loss mounted higher into the thousands of dollars when a conflagration practically destroyed the Scenic Theatre building, on Center street, early this morning, entailing a loss of between \$5,000 and \$10,000. This is the fourth disastrous fire to occur in the business section of the city within the course of but a few brief weeks."

"At ten minutes to one o'clock this morning an alarm from Box 23 summoned the fire department to the corner of Fourth and Center streets, where flames were pouring from the front and rear windows of the Scenic building, lighting up the entire central section of the city. The electric light wires popped when water struck them, and adding their glaring glare to that of the flames, making a most spectacular blaze, attracting hundreds, and within a few moments after the general alarm had been sounded, Center street was black with people, many clad in little more than their night attire."

"The fire evidently started in the operating room of the Scenic, which is a motion picture house operated by Mr. W. J. Meyers, who recently came to this city and took charge of the theatre. Just how the fire occurred is a mystery that will never be solved. There was quite a large number of films in the theatre and they were consumed. None of the other surrounding buildings were damaged by fire, and only slightly by water, if at all. Mr. Meyers stated that his loss will not be heavy, as he had nothing in the building except the piano, and his loss will not go over \$200. However, he carried no insurance."

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunk, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, evening each bony angle and projecting point. Fisher and Strick and other good druggists have Sargol, or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution:—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

## Ironton Visited By Another Blaze; Firebug Is Suspected

The building, the interior of which was practically destroyed, is owned by County Clerk Ralph W. Mountain and Dr. J. Lowry. They gave no estimate of their loss, but it is estimated between \$5,000 and \$10,000. They carried about \$6,000 insurance.

"The fire was extinguished before three o'clock, the firemen exerting every effort to stay the progress of the flames. The new utility engine was rendered absolutely helpless when a habit burned out in the pump, and thereafter the firemen were forced to rely on the pressure from the mains. The accident occurred at about twenty minutes, or a half hour after the pump was placed in commission and probably extended the life of the fire."

"While it is not known definitely, it is thought the fire broke out in the operating room and spread rapidly throughout the building, the

woodwork of the interior going up like parchment. The Scenic was one of Ironton's most beautiful buildings, and it is to be regretted that the fire-bug wrought such damage."

"The building is one of the most valuable in the city and it is likely that it will be improved within a very short time."

"For a time the fire threatened to spread to the Ironton Book Store building, which is also occupied by Dr. Jenkins' office and the W. A. Brewer real estate office and the Jesse's saloon, but this was prevented."

### JACKSON-PORTSMOUTH ROAD BID RECEIVED

Columbus, July 22.—Bids on \$1,250,000 worth of new roads in Ohio were received today by Highway Commissioner Cowen. The jobs were located in 37 counties and consisted of 44 different pieces of work.

Among the improvements were the following:  
Allen county, Lima-Spencer road, 2.5 miles, estimated cost \$35,000.  
Ashtabula county, Hampden-Audover road, 2.8 miles, estimated cost \$37,000.

Montgomery county, Cincinnati-Dayton road, Van Buren township, brick, 2.4 miles, estimated cost \$71,000.

Muskingum county, Zanesville-Caldwell road, Wayne township, macadam, 2 miles, estimated cost \$27,000.

Saloto county, Jackson-Portsmouth road, Clay township, brick, 2.5 miles, estimated cost \$44,000.

Stark county, Canton-Staubenville road, Osburg township, brick, 2.5 miles, estimated cost \$58,000.

Muskingum county, Zanesville-Dresden road, Falls township, brick, 1.1 miles, estimated cost of repairing \$15,000.

### LAYS HEAD ON TRACK, IS KILLED

Toledo, July 22.—A man about 30 years old, in whose pocket was found a piece of paper bearing the words, "Weaver, No. 15 Chatham St., Newark, O.," was instantly killed late last night by an east-bound Wabash fast train near the state hospital here. According to the engineer on the freight train, the man sprang from the right-of-way as the train approached and placed his head upon the rails. Before the train could be stopped, the engine wheels had severed the man's head.

### PIKETON MAN IS NAMED ON AGRICULTURAL BOARD

Columbus, July 22.—Governor Willis today announced the appointment of the ten members of the Board of Agriculture, which succeeds the agricultural commission. They are:  
Dr. J. W. Kirgan, Cincinnati, Hamilton county; I. S. Myers, Akron; Summit county; C. K. Patterson, Piketon, Pike county; John R. Aeldin, Perrysburg, Wood county; John Begg, Columbus Grove, Putnam county; Morton D. Daniel, Lebanon, Warren county; R. D. Williamson, Xenia, Greene county; D. D. Snider, Granit, Licking county; C. A. Branson, Cadiz, Harrison county; and T. D. West, Perry, Lake county.

### 900 OVENS ADDED IN COKE REGION

Cornellville, Pa., July 22.—Nine hundred ovens were this week added to the producing capacity of the Connellsville coke region, bringing producing possibilities to 400,000 tons a week, if all were in blast. That point, however, was not reached. Reported production has been 311,000 tons, with shipments of 5,000 tons over the preceding week. Furnace ovens in operation are 76.5 percent of the total and merchant ovens 62.6. Labor is sufficient and operators are not yet worrying on that score.

### ATTACK AND BURN PROPERTY AT BAYONNE

New York, July 22.—Two men were shot this morning in a riot which broke out in front of the plant of the Tidewater Oil Company in Bayonne, N. J., where several thousand oil workers are on a strike against the Standard Oil Company. The two wounded men are Tony Bednank and John Saginaski. They were said to have been shot by company guards during an attack made by a large crowd on the Tidewater plant. The fighting was still in progress shortly after nine o'clock.

Hundreds of strikers gathered early on the streets of Bayonne and then moved towards the plants of the Standard Oil Co. There a small fire broke out in a watchman's house inside the oil company's yard. It was quickly extinguished.

The crowd also surrounded the works of the Tidewater Oil Company which closed down its plant yesterday in order to avoid trouble. Disorder developed and in the fight the guards drew their revolvers and fired into the crowd. Two men fell and their companions hurried them away to a drug store. While the fighting was going on it was reported that the state troops had been ordered out.

New York, July 22.—Governor Fielder of New Jersey, promised today to call out troops of the New Jersey National Guard to quell disorders among strikers at the Standard Oil company's plant in Bayonne as soon as Sheriff Eugene Kinkaid should deem it necessary. The decision was reached at a conference of the governor, the sheriff and Adjutant General Wilbur S. Sadler, at Sea-girt.

Two regiments were reported to be awaiting orders to go on strike duty. These precautions were the results of riots by strikers at the great oil plant here yesterday when one striker was killed, and many others including some policemen were wounded by shots or injured by missiles thrown by strikers.

Four fires which were started in or near the oil plant late yesterday were under control today. A few small buildings and a number of box cars were destroyed. The mayor of Bayonne appealed to Governor Fielder to order out the troops while the rioting was in progress yesterday but the governor decided to act except

tioners rejected this ultimatum.

### ORDER ALL CHRISTIANS TO LEAVE TURK CITY

Paris, July 22.—A Havas dispatch from Athens says:  
"Turkish military authorities according to advices received from Vuda (a port in Smyrna) on the Gulf of Smyrna) have ordered all Christian women and children to leave the town and go into the interior. Many of the residents refused to obey the order and a fierce struggle followed, in which many were victims."

"The Greek government has received reports of the prosecution of Greeks in Turkish territory. The delay is attributed to the difficulties of communication."

"Some of the newspapers are urging the government to assume an energetic policy in dealing with Turkey."

### ANARCHISTS ON TRIAL

Paris, July 22.—The first day of the trial before the court martial of anarchists charged with circulation of seditious matter, was devoted to an examination of the accused by the judge advocate. The eccentric millionaire Prouvoit is charged explicitly with furnishing patronage for mailing seditious matter and with taking an active part in a propaganda. Mme. Donnadieu is accused of posting the letters.

The three seditious pamphlets which figured in the case are said to have been written by the defendant Hureau who admitted intimacy with an anarchist leader but denied the specific charge preferred against him. The sessions of court martial will continue tomorrow.

Want Walks Laid

The city has made request of Newton Reis to improve his property at Sixth and Brown streets, by laying new sidewalks.

### RUSS BURN WINDAU WHEN THEY RETREAT

Berlin, July 22.—Via London.—Before evacuating Windau, the Russians applied the torch to the city and the harbor works according to advices received at Liban. The greater part of the city is said to have been destroyed. The Russian troops also are reported to have fired villages and farm houses in other parts of Courland in accordance with provisions of a recently published army order.

### LUSITANIA CLAIMS SLOW IN COMING

Washington, July 22.—No actual claim for damages on account of the Lusitania disaster has yet been filed with the state department. This is due both to the fact that the question is bound up in the exchange of notes with Germany on submarine warfare generally and to lack of knowledge on the part of the prospective claimants as to methods of procedure.

Many inquiries, however, have reached the department, including one that came today from New York in behalf of one of the passengers rescued from the Lusitania, who wants damages for loss of property, inconvenience, trouble, and danger to which he was subjected, by the blowing up of the liner. All the prospective claimants have been advised by the department as to the form in which the claims must be filed. The German government has avoided in all its notes any reference to the question of damage on the Lusitania.

No claim has yet been presented in the case of the American steamer Nebraska for whose damage Germany has admitted its liability.

### THE WEATHER

Ohio—Fair with moderate temperature tonight and Friday.

### WILL ASK PERMANENT INJUNCTION

Toledo, July 22.—Despite the action of Common Pleas Judge Manton in refusing to dissolve the temporary injunction which restrains him from assuming the duties of election board official, Raymond T. Garrison, who was appointed to fill the vacancy caused recently when Secretary of State Hildebrand discharged John W. Dowd as a member of the board, announced today he would file an answer to Dowd's petition asking for a permanent injunction in a few days. In his answer Garrison will contend that Dowd was legally removed by Hildebrand and that vacancy existed when he, Garrison, was appointed.

Thousands of people go through TIMES WANT ADS every night. They read them with profit.

### Trade Commission Arrives In Cincinnati

Cincinnati, July 22.—The Federal Trade Commission arrived here this morning to hold morning and afternoon sessions in its investigation of sentiment throughout the country on the subject of foreign trade.

The program for the day called for short addresses by President T. C. Powell, of the Cincinnati Chamber of Commerce and by Chairman Joseph E. Davies of the commission, and after that statements by a score of local exporters.

## AERIAL TORPEDO BOAT IS INVENTED BY AN AMERICAN

Washington, July 22.—An aerial torpedo boat for attacks on ships in protected harbors is projected in patents just issued, it was learned today, to Rear Admiral Bradley A. Fiske, now attached to the navy college but formerly aid for operations to Secretary Daniels.

The plan contemplates equipping a monster aeroplane, similar to a number now under construction in this country for the British government with a whitehead torpedo of regulation navy type.

Sweeping down at a distance of five sea miles from the object of attack, the aircraft would drop its deadly passenger into the water just as it would have been launched from a destroyer. The impact sets the torpedo's machinery in motion and it is off at a speed of more than forty knots an hour toward the enemy ship. Admiral Fiske believes that the flying torpedo boat would make it possible to attack a fleet within a land locked harbor. The range of the newest navy torpedoes is ten thousand

yards and even the older types will be effective at seven thousand yards.

Carried on a huge aeroplane the 2,000 pound weapon would be taken over harbor defenses to an altitude safe from gun fire. Once over the bay the machine would glide down to within ten or twenty feet of the water, the torpedo rudders would be set and it

would be dropped, to do its work while the aeroplane rose and sped away.

Aeroplanes to carry a ton of dead weight have been perfected by several countries. Russia is said to have several that will carry twenty men and the new British air craft probably will have a similar capacity.

It is said to be possible that a type of radio-controlled torpedo might be employed, one aeroplane carrying the torpedo and another the wireless. It is pointed out that Admiral Fiske secured patents on such a method of control in 1900 when he was adjutant commander in the navy. They are said to be so broad and far reaching as to underly all subsequent development of

radio control devices.

"My invention," says the application filed by Lieutenant Commander Fiske before the battle of Manila was fought, "is especially applicable to automobile torpedoes and makes it possible to control the movements of a torpedo with great certainty from a shore, from the deck of a ship or the like."

Since the aerial torpedo plan was advanced, reports have come that German engineers were at work with a somewhat similar scheme. It is proposed to drop from aeroplanes a torpedo that can be guided by radio impulses during its fall and sent with absolute certainty to its mark.

# IRONTON SMOTHERED UNDER AVALANCHE OF HITS

## Bingles Fell All Round Irontonians, Score Was 12 to 4

W. SING a September Morn ball, that is one that did not have anything on it. Pitcher Reams of the perfectly good and well balanced Ironton team was hammered to all corners of the lot in Wednesday's battle at Millbrook park, the score being 12 to 4 when the game ended in the ninth, the Spencerites being on the long end of it.

No matter where Reams threw the ball it crashed into a bat wielded with vigor and accuracy and he was touched up for 17 safe and sane runs, netting 20 bases. The first cluster of tallies came in the third when five were scored and the trick was turned so easily and handily that it was repeated in the fifth much to the gratification of the fans who took a slant at the afternoon's pastime.

For two innings it looked like a real ball game, but when Portsmouth began its cannonading in the fulsome third Reams was permitted to stay on the mound and he received an unmerciful beating. The merciless Spencerites not satisfied with five runs proceeded to pile up all they could and the contest soon degenerated into a slugging exhibition, Portsmouth doing all the slugging.

When the team had a breathing spell in the hitting line it would try way of diversion—steel bases on McDaniel's or make a few funny stops when Ironton bled up at the plate and glimpsed the ball as flipped by one pink checked Larry Jacobus. Hauling out his Over-the-hill-curve Jacobus was very effective and had he not eased up in the eighth the enemy would have been completely routed and sent home batted in whitewash. But Larry has been about up differently. He was always told to respect the hour and steady.

Five runs in the third were produced by five of the clearest hits that any bunch of players ever drove out, each blow was good for a tally in this rally and the explosions came after two were down. Bush and Jacobus for a starter were put away by Perry and Taylor and it was 5 to 1 shot that no scoring would be indulged in. But well Billy got a blow, so did Dilly, Sherman and Johnson and Caton cut in with a triple. Then he stole home and five runs were across.

In the fifth passes to McHenry and Spencer a single by Bush, an out by Jacobus, Ollom to Taylor and hits by Dills, Sherman and Johnson were productive of five more runs. The last Portsmouth run came in the seventh when Spencer, Jacobus and the Dill boys biffed the leather to unguarded spots.

Ironton's four runs came in the 8th. Taylor drew a pass and Calbert, Ollom and Perry singled in rapid succession, three men scoring and Perry scored on an out. In the ninth Spence was thrown out by Dilly, a fine play. Taylor singled but Calbert and Ollom were thrown out by Dilly and Bush.

There was nothing to it but Portsmouth in this one. The same teams go to the mat today.

Pitcher Reams has not won a game from Portsmouth this season. Every time he is trotted out Portsmouth scores a victory. Reams has lots of speed, but no change of pace. He has won a lot of games at that for the Taylorites.

Spencer is playing the best game of his life at first. His work on ground balls is almost perfect.

The fans certainly like a team that can ride "the good old American apple." That is a new name for the horsehide.

Keep your eye and purse open. The boosters' committee will soon call on you.

Brooklyn Grabs Olson

The Reds have sold Ivan Olson to the Brooklyn team. The Trolley Dodgers believe they have a chance to grab the National league pennant and they are picking up the ball players lying around loose.

### NOT WORTH \$200 IN 1913; NOW \$20,000!

Owner Navin of the Tigers writes in agony every time he reads a line about Guy Morton of the Indians these days. Guy would have been a Tiger a couple of years ago had a Detroit scout made a favorable report. Morton could have been purchased at that time for \$200; today Navin would give \$20,000 for the Cleveland.

Guy Morton.

The scout's report was that Morton's delivery would be ineffective in the major leagues, and also, the chances were against him lasting long in any league "because of the unusual exertion he put on the ball." Instead of Morton the scout recommended the purchase of McGreery, a pitcher once heard of, but scarcely remembered. With a pitcher of Morton's class the Tigers would be clean favorites in the pennant chase.

## Scored From First On One Base Hit

Ralph Sharrman gave us fine an exhibition of base running in yesterday's game as has been seen in Millbrook for many seasons. He was on first when Johnson slugged one over second. When the ball was hit Sharrman was all set for second as the hit and run was on. Rounding second he did not halt at third when he saw Ollom make a slow return of the ball and he kept right on coming home, reaching the plate without making a slide. It was some sprinting.

### SMOKY JOE IS A REAL COME BACK

Smoky Joe Wood of the Boston Red Sox is pitching the best ball of his career and if he keeps it up there is small doubt but what the Red Sox will be the winner in the American league. It is said that the speed merchant has more speed than ever.

## THE "HOME SICK" BABES

Pipe this from the Chaffinch News: With the beginning of the new season Tuesday the home-sick Babes were given a new start in the Ohio State league race. They dropped their opener, but it was by the narrowest margin. Whaddya mean, home-sick Babes? They have a real home now.

## Pilfered At Ease

The Portsmouth team had no trouble in stealing bases on McDaniels, in fact they stole everything "Chuck" had but his spiked shoes and they were clumped on. And it was no fault of McDaniels; that the gang of burglars of the local team ran wild on the bases as Reams failed to hold the runners on and no one could have stopped the thefts boldly perpetrated yesterday.

## May Join Cleveland

From Cleveland comes a report that Outfielder Billy Nixon of the Cleveland A. A. team will soon be playing with the Cleveland American league team. Nixon, who played here several seasons ago, is hitting like a fiend this year. In a recent double header he was up 9 times and cracked out 7 hits.

## GOING AFTER OLD FLAG

The Charleston Senators have started out to win the second half flag. They have won two in a row from Mayaville. Before leaving the city Manager Biddy Burns stated that he would make a determined effort to grab the hunting and would get three or four new men if he had to. Biddy is on the lookout for one more good pitcher.

## CONWELL ON THE BENCH

Irish Conwell is not in the game for Waco. He has been decorating the bench for the past two weeks. Tanner going to short. Waco is now leading the Texas league by three games, having wrestled the lead from the Galveston Pirates.

## Reilly Is New Mgr.

Arch Reilly, former Ohio State athlete, has been signed as manager of the Wheeling Central league club, succeeding "Pop" Schriver. Reilly plays third base for the Stooges.

## Baseball Pool System Is Bared

Cincinnati, O., July 22.—The National Baseball commission took official cognizance today of the so-called nation wide baseball pool which the postoffice department at Washington has been investigating when Attorney John E. Bruce, of Cincinnati, secretary of the National Baseball committee, appeared as a witness in the case of Edward Hardy of this city, who is charged with conspiracy and promotion of a lottery. The hearing was before United States Commissioner Joseph Adler, who at its conclusion held Hardy to the grand jury at Philadelphia in bond of \$10,000. Hardy gave the bond required for his appearance next September before the grand jury of that city, where it was stated by Commissioner Adler, all of the cases growing out of the federal investigation of the alleged baseball pool will be taken up.

Secretary Bruce, in his testimony spoke of the danger of the so-called pool to the sport of baseball, and, as a representative of the commission, requested that it be eliminated.

## SOFT FOR BAG OLD BOY

Down in San Antonio Johnny Baggan is winning fame and glory. The other day Bag, old boy, kissed the ante for three sacks and the bases were jammed. Baggan then stole open. After looking up the park his days work was done. His team won 6 to 2. The Broncos are in the first division of the Texas league and Baggan is playing brilliantly almost every day. The San Antonio Express recently published his picture accompanied by fulsome praise.

## Caton Is There

How did he do it? Well, howdy, "just went and done it." Watch "at him." He secured three blows, one a sweet scented triple yesterday and stole home as cleanly as any member of the light fingered brigade ever nipped a wing off a dresser in Lizzy's room. His three cushion swat was to the pennant pole. This boy Caton is some ball player.

## Beaten In Ninth

A ninth inning rally by Charleston beat Mayaville Wednesday the final being 7 to 5. The game was played in Mayaville.

Offers of 1 to 5 are being profusely showered about the National league on the New York Giants, since they have reached the first division. Bets are being everywhere placed, picking the Giants as the pennant winners.

## Cavet Is Released

Detroit, Mich., July 22.—Tiller Cavet, the left hand pitcher who has been with the Detroit Club since the spring of 1914, has been released to the San Francisco club of the Pacific coast league.

Cavet goes in exchange for Robert Jones, a third baseman, who is expected soon to join the Tigers.

### RUBBING IT IN.

Former Congressman Bannan was rather rubbing it in on the exalted warriors of the old gang when he dubbed them a bunch of kickers and declared that they were seeking to destroy the real organization of the party locally, and also to discredit and humiliate the administration of Governor Willis. More than this, Mr. Bannan went after some of the chief personages of the alleged kickers and drove the McCormick followers into ribald and jeering laughter as he painted their anger and dismay when they were shut off from the political feed trough. All of this was most unkind in Mr. Bannan as was also his action in recalling the frost that was prepared by the same old gang for one, Frank B. Willis, when he came here, thusing the nomination. The inner story of the suppression of a call for a meeting to arrange to meet Willis is something new, but if true, it shows to what lengths the Republican factions will go to carry out their purposes.

Bannan and his proteges, McCormick, seem to have their enemies on the run. At any rate they are out-talking them, in which fact they somewhat resemble the two colonels—Bryan and Roosevelt.

### AN EXPLANATION NEEDED.

The resident construction engineer is quoted as giving it out that the water works complete would cost the city \$450,000. Now that suggests several things. In the first instance that the engineering force should hold a convention and organize to a common opinion. For according to the construction engineer the plant is not now complete, but the operating engineer says it is in successful operation, and has been for six months, which implies completion. Already bonds to the extent of \$550,000 have been issued to cover the cost and that sum is no more than sufficient to meet the liabilities already incurred. It becomes important in one view to know what has become of the surplus \$100,000, and in the other just what does the construction engineer mean in saying the plant would cost the city \$450,000 when completed. Is that to be the cost from start to finish, or does it mean that when the specifications are changed, as the engineers and contractors are now talking about, and new machinery and new processes put in, it will cost \$450,000? It is really important that the public know just what it is up against as a tax paying and costing proposition, in this plant.

### THERE'S A REASON.

The Sandusky Register, Republican, avows the press of the country with singular unanimity and regardless of politics is sincere in supporting President Wilson's foreign policy in reference to the European war. Another fact is evident, and that is all newspapers, also regardless of politics, are opposed to President Wilson's foreign policy in relation to Mexico.

Which, the same, sounds real elegant, there being only one thing about it to be deplored; it is not true by just one-half. To a man the Democratic press is standing steadfast with Wilson, in both the European and Mexican situations. A large number of Republican papers profess to support him in his European policy, but it is few indeed, that show genuine sincerity. Practically all the G. O. P. organs revile his course with Mexico and for that is there reason. Mexico is so puny that we, with one arm tied behind and blindfolded, could cuff her about without the slightest danger of getting any more than a scratch, and then there are no north while Mexican votes in this country. With Germany the case is different, so much different. The Germany vote numbers up in the millions; it is consequential, and in the work of making it hostile to Wilson by patting him on the back, why that's good partisan business.

Our good young Governor is real peeved at Auditor Donahy's official statement that he has run up the state expenses four million dollars for the first year and is going to do some figuring for himself. If he is as careless with the figures as he was with facts when running for governor, we bet he'll make those figures prove Donahy is a liar, to his own entire satisfaction.

Here's an item from the Delaware Journal-Herald we read with delight: The small building at the Blue Light quarry was set afire by a cross current, of electric wires, during the heavy storm of Thursday and completely destroyed. No mysterious or unknown origin about that, not so much as a supposition, just the plain, positive statement of a cause that can not at least be disproven.

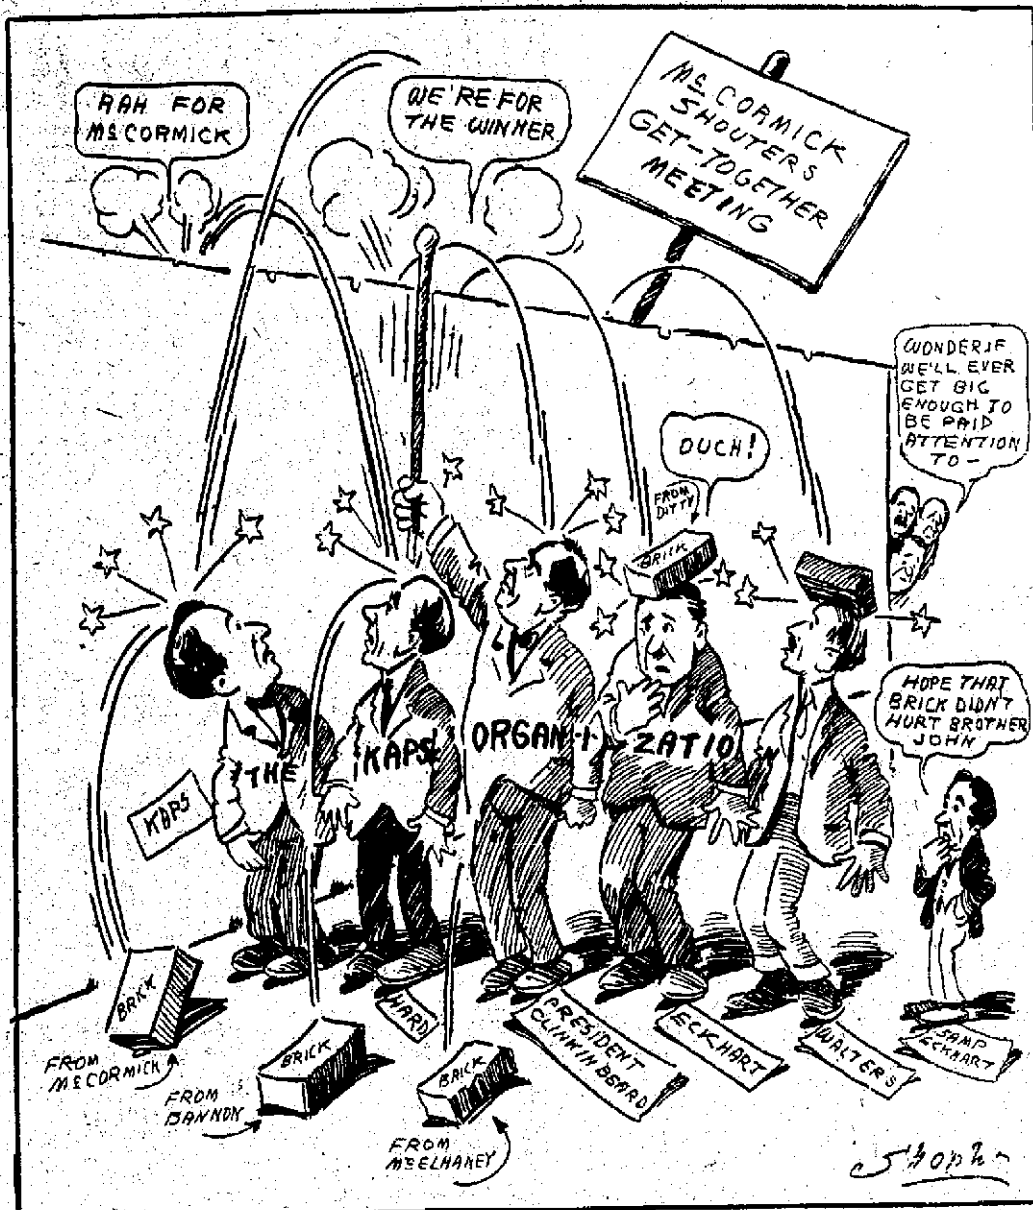

The unkindest cut of all is handed out by his once staunch supporter, the Jacksonville Times-Union, which observes: Some papers are still worrying over why Bryan resigned when there ought to be nothing but rejoicing.

The Cincinnati Reds are coming home this week. They will find among other sad things, that the berth in the Ohio league is now closed to them.

Carranza and Zapata are playing a regular after you my dear Alphonse act over Mexico City.

The Russians seem to like being licked better than any other party to the fracas.

### THE MCCORMICK CLUB HAS A "HARMONY" MEETING

### LOOSE AT WRONG END.

One of the reasons of general and colossal ineffectiveness in handling public finances is the money can be so instantly spent for bootless purpose and it is so long and hard in the getting, when it is wanted for absolute and immediate needs.

There is Franklin county as a dark and distressful illustration. Franklin, in proportion to her size like every other county in the state has each term of her board of commissioners spent and frittered away millions of dollars to no appreciable result. In a niggedly and half hearted way she has built levees along the Scioto and Olentangy to protect from overflow. The great waters of 1913 showed how inadequate these were. As they subsided there was brave talk about flood defences, but as the vividness of the last flood faded away so did the work and the net result was practically no improvement made. With the waters of 1915 swirling by, of course, the levees and dikes are going to now be thrown up high and strong—some time. Not right now because there isn't any money available for the present, but the defense board has been organized, secretary and treasury elected, with due provision for the payment of salaries, but actual work will have to wait upon the collection of taxes.

Yes, that's quite like we do it in Scioto county. We levied a special \$100,000 annually for permanent roads and the first year most of the \$100,000 was dubbed and pattered away in dumping mud and muck and throwing innumerable thank-you-mans across them until they look like a section of trenches or ramparts in northern France and now with the rains coming down and washing gullies and holes in the highway there isn't money even for dirt dumping, unless the people vote another special \$100,000. And then there's those tow-paths—but let them go without another word.

A Democratic contemporary sees John J. Whiteacre manifesting signs of penitence for the sinful and shameful major part he played in the organization last campaign of the True Blue Democracy, as the facetious Jim Faulkner calls 'em. It sees something that ain't. That red headed reprobate of a Whiteacre wouldn't recognize penitence so much as a palpable substance if the two met as the sole wayfarers on Canton's biggest thoroughfare at noon today.

The sedate Columbus Dispatch says Harry Thaw could bestow a great blessing by disappearing from the public ken. That isn't just exactly fair to Harry. Newspapers could just as readily bestow a boon on the public by dropping him as a news factor.

We observe the chief operating engineer at the water works is quoted as saying they have been in successful operation since November 4th. Why then all this fuss about reservoirs that wouldn't reservoir, pumps that wouldn't pump and machinery that wouldn't machine, to say nothing of water that wouldn't water at divers and sundry times? It isn't fair to contractors to ask them to make more of their work than a success, so, pay them their money and quit annoying the public with unnecessary wranglings, if the chief engineer states the case correctly.

A Chicago policeman has quit the squad to become president of a bank. That proves he is most unusually thrifty for a cop, but in what way is not suggested explicitly.

The Russians want a billion rubles for running expenses. Sounds like a big sum, but guess it isn't much considering the running the Russians are doing these days.

Across the pond, glancing at the situation from this distance, it appears about as Napoleon said: In war God is on the side that has the most cannon. That is not either as irreverent as it may sound, as it means that those who make the best preparation to achieve victory and thus show most desert.

Nothing is so bad as it might be. The latest insurgent of the Scioto carried out the temporary bridge, just to keep in practice, but it did little damage to the corn fields.

If Frank improves for another three days like those gone before, it will be safe guess that his thrilling throat cut was nothing more than a scratch made during the paroxysms of a nightmare.

### OLD NEW YORK

New York, July 22.—Mr. Fredrick Welsh, of London, England, and not infrequently the squared ring, tendered a delightful dinner to a number of his friends at Coney Island one night last week. The occasion was the first anniversary of Welsh's ability to toss more padded fists in the direction of William Ritchie than Ritchie could toss in his general direction. The table was decorated with padded mitts, ropes and rosined boards. Not a few of the guests, too, wore appropriate decorations, consisting of cauliflower ears, twisted benks and cleverly placed bits of court plaster.

Welsh in his speech announced that he was returning to England shortly to rest and incidentally to see for the first time the young son who was recently born. One of the features of the dinner was the extraordinary care the waiters took not to spill any hot soup or hot coffee on the guests. Mice and monkeys, buttons and beads, cheeks and clocks, roses and lassels—they are wearing them all this summer as adornment to the summer girl's feet. This is the age of a pretty foot. You cannot fail to see it. Skirts refuse to hide it; stockings scream aloud for attention. Some disguise themselves in the guise of shoes; others imitate a cutaway coat. Still others, conspicuous as a barber's pole, cannot fail to advertise the. Trilly they clothe. A dancing monkey or a timid white mouse glimpsed vanishing beneath a skirt hem, first startle the passerby, then focus his attention on the ankle whereon they disport themselves. The boys who hang around the wind-swept corners such as the Flat Iron Building and Times Square had much to amuse them these days.

Karl Kitchen was on an elevator in the Equitable building the other day when a lady got on and a young man promptly took off his hat, then he lighted his cigarette. Now Kitchen wonders if the young man was trying to be neutral on the gent stuff. It reminded Lee Kugle of the fellow who said "Excuse my glove," when he slapped a lady.

M. Leo Theimer, maitre d'hotel of the St. Regis, has disputed the assertion of Henry Ford that wealthy people eat too much. It is not the wealthy who stuff themselves, according to Mr. Theimer. He says on the contrary the wealthy man is careful, discriminating. He is conscious of the art displayed in the dishes. But the poor man on a splurge. Poot. It made M. Theimer shrug his shoulders. The poor man, he says, is the grand gourmand. He orders all the menu even to the printer's name. Also it was brought out that the steaks and chops are no longer as fat with the rich. It is the Gay of the salad. Long may she yawn!

Yonkers, the New York snubbers great jests for the vaudevillians has a modern Cad of Bagdad. He is Judge Joseph H. A group of sidewalk comedians were discussing a well known actor who wears a wrist watch and is a fiend for soda water. One said that he had heard he was a graduate of Harvard. "Oh, no," replied another, "He almost became a graduate of Vassar but he failed in his crocheting."

Snappies paragraph of the week in New York newspapers: "Nowadays you have to look twice at the picture on the front pages to see whether it is a record of a storm havoc in the middle west or merely another cathedral."

Woman

Who rules the world, what'er be-tides

And ever in true worth abides

A woman.

Who, ever constant, ever true,

And ever found, through love, to do

A kindly duty—just for you?

A woman.

Who derring all of wifehood's reign,

Will ever keep an honored name,

Like lustrous gold, without a stain,

And striving always for your gain?

A woman.

Who bears the brunt of worldly care?

Where duty lies is ever there,

And every pain her heart to share

Should anguish fall? An angel fair,

In kindly aid, her love deserve?

A woman.

And when life's work is laid aside;

When hulk of time are in the tide

That sweeps to seaward, ruthless wide—

Who weeps, and in her heart aub

eried?

And breathes the prayer that's not denied

At God's white throne where saints abide?

A woman.

Oh, woman, mother, sister, wife,

Thy blessing binds the sweeter life;

And through the battles, cares

and strife  
 Thy sweet devotion, ever rife,  
 Demands a crown of love's de-vine.

# ANOTHER FIRE AT IRONTON; SUSPECT FIREBUG

## Theatre Destroyed And Other Buildings Placed In Jeopardy

Are a gang of fire bugs operating in the city of Ironton?

Some people of that city firmly believe there have been, and that the recent fires there were of an incendiary origin, according to Ironton visitors in Portsmouth.

This theory was greatly strengthened early Thursday morning when fire of a doubtful origin broke out in the beautiful Scenic theatre building on Center street of that city and menaced other valuable property in the center of the business section of Ironton.

It was the third serious fire Ironton has had in three months, the first being the Masonic Temple fire, then the building occupied by The Fashion, a ladies' ready-to-wear store, being gutted, and now the Scenic theatre is practically destroyed.

Relative to this morning's blaze, the Irontonian said:

"Ironton's fire loss mounted higher into the thousands of dollars when a conflagration practically destroyed the Scenic Theatre building on Center street, early this morning, entailing a loss of between \$3,000 and \$10,000. This is the fourth disastrous fire to occur in the business section of the city within the course of but a few brief weeks.

"At ten minutes to one o'clock this morning an alarm from Box 32 summoned the fire department to the corner of Fourth and Center streets, where flames were pouring from the front and rear windows of the Scenic building, lighting up the entire central section of the city. The electric light wires popped when water struck them, and adding their darting glare to that of the flames, making a most spectacular blaze, attracting hundreds, and within a few moments after the general alarm had been sounded, Center street was black with people, many clad in little more than their night attire.

"The fire evidently started in the operating room of the Scenic, which is a motion picture house operated by Mr. W. J. Meyers, who recently came to this city and took charge of the theatre. Just how the fire occurred is a mystery that will never be solved. There was quite a large number of films in the theatre and they were consumed. None of the other surrounding buildings were damaged by fire, and only slightly by water, if at all. Mr. Meyers stated that his loss will not be heavy, as he had nothing in the building except the piano, and his loss will not go over \$200. However, he carried no insurance.

"The building, the interior of which was practically destroyed, is owned by County Clerk Ralph W. Mountain and Dr. J. Lowry. They gave no estimate of their loss, but it is estimated between \$5,000 and \$10,000. They carried about \$5,000 insurance.

"The fire was extinguished before three o'clock, the flames exerting every effort to stay the progress of the flames. The new motor engine was rendered absolutely helpless when a habit burned out in

the pump, and thereafter the firemen were forced to rely on the pressure from the mains. The accident occurred at about twenty minutes, or a half-hour after the pump was placed in commission and probably extended the life of the fire.

"While it is not known definitely, it is thought the fire broke out in the operating room and spread rapidly throughout the building, the woodwork of the interior going up like parchment. The Scenic was one of Ironton's most beautiful buildings, and it is to be regretted that the fire-flood wrought such damage.

"The building is one of the most valuable in the city, and it is likely that it will be improved within a very short time.

"For a time the fire threatened to spread to the Ironton Book Store building, which is also occupied by Dr. Jenkins' office and the W. A. Brewer real estate office and the Josselson saloon, but this was prevented."

### REFUSES JOB AT \$250,000 A YEAR!

Samuel Felton.

Samuel Felton, one of the receivers of the Chicago Great Western railway, has turned down an offer of a salary of \$250,000 a year for two years from the Baldwin Locomotive Company, which wanted him to take charge of turning out a large contract for ammunition received from Russia. He thought the work would prove too much of a physical strain.

### JUDGE WALTERS IS A BIG LOSER

## Diltz Cleans Up Things At Home; Police Are Pleased

William Diltz, a steelworker, enacted the role of raider of his home on West Eleventh street Wednesday evening, thereby enabling the police to carry out what they themselves for some time past had vainly tried to accomplish.

Diltz was thoroughly angered over his wife causing his arrest the night before and going to his home he proceeded to "tear up the patch." He chased out Katie Queen, Rebecca Badgley and Martha Hawland whom he found

in the house, declaring that he did not have to contaminate his home with such undesirables. They scattered to the four winds, but police gathered them in and they were locked up for the night.

Diltz wanted his wife prosecuted for harboring such women and said he would take charge and provide for their little boy.

The Diltz home was included among those the city recently tried to clear of undesirables but the couple claimed to own their property.

## Dr. Seitz Refused Damages By Jury

Damages of any kind were denied Dr. William Seitz, against Dr. T. H. McCann, of Waverly, by a jury in common pleas court Wednesday afternoon after hearing evidence in the suit brought by the local doctor against the Waverly physician on a charge of slander.

The case went to the jury shortly before the supper hour and after the jurors were taken out to supper they commenced their deliberations and soon returned a verdict for the defendant.

Dr. Seitz was suing Dr. McCann for alleged slander asking \$5000 damages. Attorney Theo K. Funk represented Dr. Seitz and Attorneys Mark A. Crawford, city, and Levi Moore, Waverly, represented Dr. McCann.

### The Movies

#### Big Feature Day At Arcana Theatre

The Arcana Theater, Seventh and Chillicothe streets, offers patrons a great feature program this afternoon and night.

In three spectacular reels vividly portrays the destruction of London by fire in 1625. This feature, which is entitled, "When London Burned," will no doubt prove to be one of the most spectacular productions ever shown in this city. Every foot of film produces a thrill, and the excitement is intense from beginning to end. Whole blocks are seen to crumble at the behest of the fire fiend. People are turned into human torches. See how the fire was fought in those early days. See the buildings blown up by dynamite. Charley Chaplin, that wonderful comedian will also be seen in a scream. Chaplin is without a doubt the most popular player in the silent drama. This big feature program will be shown for five cents. Manager Potts believes in giving his patrons the best to be had, and today's program is a great one.

#### Columbia Today—Clara Kimball Young in the "Deep Purple"

At the Columbia today the World Film Corporation presents the five part photoplay "The Deep Purple," founded on the Liebler production of the same title, with that international favorite, Clara Kimball Young and an all-star cast of specially selected artists.

The story is concerned with the doings of a set of people who are types to be met with in every day life. The mirror is held up to nature with unflinching realism by the authors, Paul Armstrong and Wilson Miener, men who know and studied the people whose unpleasant characteristics they converted to dramatic use; experience and accurate observers, both of the other side of things.

The "badger game," decoys, side-streets, the broad back of a Westerner, the big, big love of a good woman, the human pulsating, eternal problem of the city. Here indeed is spread the broad pages of life and truth and romance.

This is one of the most interesting pictures you have ever seen, showing actual life in the New York underworld, the perjuries of the tenderloin, blackmail, wire tapping, fraud, gambling, gunplay; these are the environments in which the unsophisticated innocents fresh from the country suddenly find themselves, and from which in the end, they emerge unscathed.

Tomorrow is Paramount Day and Manager Tyne takes pleasure in announcing one of the very best of all Paramount pictures in "The Wild Goose Chase," a merry romantic comedy in five parts with Ina Claire, Broadway's daintiest and most fascinating little star as "Betty Wright," the lively college girl.

Miss Claire, charming and modest, is the youngest American Broadway star and ever since her historic success in "The Quaker Girl" she has been the favorite of both New York and London.

### Will Give Excursion

The Ladies' Aid Society of the Sciotoville Christian church will give a moonlight boat excursion on the steamer Peerless Saturday evening, July 31st. The boat will leave the foot of Jackson street Sciotoville, at seven o'clock.

## DRIVER, HORSE AND WAGON GO OVER KENTUCKY BANK

Hurled from his wagon when it plunged down an embankment leading to the C. & O. ferry this morning, Jay Poe, a gardener of St. Paul, Ky., was bruised about the arms, head and shoulders but no bones were broken.

As he neared the edge of the bank on his way to Portsmouth his horse gave a sudden lunge and before Poe could prevent the accident the horse and wagon with all its produce plunged down the embankment. Poe was picked up and taken to the Wingo restaurant near the South Portsmouth depot, where his injuries were dressed by Dr. A. J. Bryson, who was summoned from Fullerton. The horse was not injured and very little damage resulted to the wagon and harness.

## Strickland Writes From U. S. Navy

Earl Strickland, son of Mr. and Mrs. Henry Strickland, of 1805 Grandview avenue, who three years ago enlisted in the United States Navy is now located in the United States Barracks at Philadelphia. Mr. Strickland before leaving the city was employed in the plant of the Portsmouth Steel Company. Writing to his parents Mr. Strickland says:

"We have just returned from a hike to West Chester, Pa. While there we took part in the unveiling of a monument to the Soldiers and Sailors and we had a fine time at camp. We camped on a place that contained one hundred acres that have sunken gardens, swimming holes and fine roads. The famous Marine Band from Washington, with 87 pieces, was down and entertained the trip with stirring music. The people of West Chester certainly treated us fine, as they sent us ice cream, strawberries, clam chowder and all kinds of sandwiches. The last day there the people

provided us with automobiles and took the sailor boys to the battle field of Brandywine. There were 1,100 of us and we certainly had a great trip. On our hike back we averaged about 1-1/2 miles to the hour. Some of the boys dropped out and one man died upon arriving at camp and three more are in a serious condition. I made the trip nicely, but was awfully tired at the finish. The sun is very hot over here. I am as brown as a berry. The laying of the keel of the first ship to be built in the yard here will be celebrated tomorrow. An admission of 25 cents is charged and the proceeds will go to army and navy unions. There will be a dress parade, company drill, tug of war, foot races, ball game and shelter tent pitching. They expect about 50,000 people in the yard. We put up hospital tents today, and the ambulance corps will be held in readiness all day. This is about all that I can think of that will interest you, so will close, with love to all. EARL.

## NEW NAVY DISCIPLINE BRINGS SATISFACTION

Washington, July 22.—Ship-board discipline on specially designated vessels as a substitute for the old disciplinary barracks for youthful navy offenders is bringing most satisfactory results. Older men who have served a part of their sentence, were sent to these ships and drills were substituted for ordinary forms of prison labor. A boat's crew from the disciplinary ship Topoka at the Portsmouth yard, the statement says, won the trophy offered by the Portsmouth Yacht Club at the last Fourth of July regatta, competing against entries from the cruiser Montana, gunboats Paducah and Tacoma and other ships.

Officers ascribed the victory to the careful training in all branches of sailor work given "detentioners" on the ships. Their work includes academic and vocational training calculated to increase their efficiency when returned to duty. During sentence, they are not allowed shore leave, but those who show proficiency are restored to duty on probation on regular liberty and pay of their rating. At the end of two months' probation as a rule, it is added, they are discharged and sent to sea.

"This feature," the statement continues, "from results obtained appears to satisfy the ends of discipline and also saves to the service a number of more or less careless and wayward youths, who in a moment of thoughtlessness absent themselves from the naval service without fully realizing the consequences of their actions."

If you have a room which is not occupied you should be using TIMES WANT ADS.

## EDITORS' PROGRAM ANNOUNCED

Columbus, July 22.—The program of the mid-summer meeting of the Ohio Associated Dailies at Cedar Point, August 6, has been made public here. ## GREAT DEMAND FOR ARTIFICIAL LIMBS IN GERMANY AS THE WAR WEARS ON

In artificial limb shop.

The manufacture of artificial limbs in Germany has grown apace with the war. So many of the Kaiser's men have lost arms, legs or both, that it was long a serious matter to meet the demand for artificial limbs. The present product is an advance over those made in the past. They are lightly constructed and of such delicacy that those who wear them find little inconvenience.
